Er. Yom Kelley U.S.Decret Service 180 / G St., NW Washington, B.C.

Dear Ton.

some time ago, in a speech at Stanford University, Anthony has a state reference to a Rand study of the assassination of President Kennedy. Although I have not yet seen it. I understand damparts contains a mindlar reference. I believe Mr. Rowley testified to a study made by Rand for the Secret Service. Insofar as such a study, as it relates to measures for the protection of a president, in my opinion, may be properly withheld, I have no interest in it. However, if this study goes farthur and deals with fact or what is considered probable fact about the assassination of President Kennedy, I am interested in it. I would like to be able to examine any pages that deal with the assassination of President heanedy in any number other than in terms of protection of presidents in general. I am not asking you to make copies for no because until I see any such pages I have no way of knowing whether they are of any interest to co. They may not be. I have only museo's opinion that the entire thing should be cade public. I do not know upon what he bases this nor do I know if I agree. However, I would like to see what is not addressed only to measures needed for protection or what is advressed to the assessination of President Remedy. If I am not in Washington carlior, I will be there on april 5.

AGATO NICATION DE LA COLUMNIA DE ANTARES DE ANTARES AGAINMANTAIN DE ANTARES DE ANTARES ANTARES DE A

I have written you several times about the 17 stills of the Whol footage delivered to the Heeret De vice by chann Rush. They are not in the Archives. I was in new Grienns just before Thenhaptving. I have had a copy of the Whol file copy of their osweld film for some years through the kindhess of Whol. I now know from two separate sources, one of which is Whol, none of what was edited out of the movie film not only after the assaudingtion but after it was viewed after the assaudination. I would like to be able to see these stills when I am in Mashington, and if you would like to know what I have learned, I will be haply to tell you.

In this trip I also was told that by court order Godfrey Mirkpatrick was, for a short while, permitted out of the institution. His sother told so he has to be returned.

You wil., I think, remember a strange letter sent to Senator Cravel's administrative assistant and using my name. Off the cuff, I had a suspect. Thereafter, because of the hidden crudition, I spent much time on that inherent threat. I do not believe it within the capability of that suspect. There was considerable subtlety in it. For example, the fake return address translated into an appropriate hiblical reference. After it was mailed I received several phone calls from a man them in the area who said he was moving to Florida. From his own account of his education and experience, he could have been capable of the subtlety and the crudition. He is also a linguist, and if your people spent much time on that latter, they found what could be taken as the use of other than English.

Sincerely,
