

Gary, HI is alone in downplaying this business. Not as it relates to KT, which is no more than a hunch that can't be ignored but with each new possibilities becomes less of an impossibility, but in toto. He has noted what others have, the references to various kinds or forms of stones, etc., and suggests possible ref to JGs business with gays. You alone or us can offer a scientific estimate if this is within his potential, if you can draw enough from the conversation you overheard here and from what you know of his testimony, writing, etc, etc. I would like to hear from you as soon as you can find time. Also, of course, on anything else you can see or find not impossible, for you alone among us may also be able to draw interpretations from formulations too obscure for the rest, if they exist in the language of the "message". I have not spread this generally, consulting of the critics only PH, HR, JNS. Most are other than critics, selected for special reasons. I think it may be significant that all four reporters, by profession inclined to skepticism, are here without it and all are, additionally, fascinated. Kelley has been without response, possibly because the SS originally dismissed the entire thing, I suspect without seeing the possibilities we have found. I think the Ocean think may be significant. I should have followed it, having found his name on the first check of "Ockie", but I really don't know how I'd have found time. On another subject, and in strictest confidence, my writing the judge that the Archives/^government had not done what they had promised him brought immediate response from Rhoads, who had ignored my letter from a month. I will get the see the four pictures I asked be taken in a couple of days. They had not even taken the two of these I had earlier asked. After I see them, I think Cyril and his criminalist will come together to see them, and I then hope to be able to take a net reporter, who is getting interested in what I have given him (typical) on the RFK case and already has asked for an investigation by an IA associate. He also understands the objectives of the present DJ administration. Lil continues to make slow progress. This a.m. she waked to the end of the lane and back without a cane, but the trip to DC to see the orthopaedist Monday was too much for her, tho she walked little. Effects lingered several days. From what Hal said you did enjoy yourself. He was vry glad to see you and happy with your finding yourself, as he put it (no inference you were earlier lost). Buck seems to be pretty sick, so I do not know if Mary is still coming next month. Hope you can stay here if you get to DC so I can bring you up to date on many things, so you can read incomple ms, etc. Probably I can provide transportation to DC and do other things while you are there...Do hope you will have had some comment here by the time I go to DC. Mc^overn's adm, asst. has asked me to keep hi au courant. Takes seriously.

Best, HW
