

Dear Mr. Weisberg:

Hope this is helpful. Wish I could do more. Still ~~am~~ study this case but I am limited due to ~~my~~ health. Hope yours is good.

Frankly, so much has come to my attention just in the last 2 years that I could have sent to you, but with my illness I just cannot function.

~~Major~~ Major point: White House photographer Thomas Atkins comments on "the sounds came so close together. That is, between the second and third shots." "A key condition of the commission's lone assassin theory is that 2.3 seconds Oswald minimum between shots."

Now, did not Clint Hill testify that ~~tee~~ the second and third shots were extremely close together "it was like an airplane breaking the sound barrier...bangbang double explosion together-Mr. Weisberg, obviously precluding the Mannlicher-Carcano. It was either Hill or another secret service agent in the back-up car who so testified. I remember it distinctly as being in the Newsweek issue immediately after the assassination. ~~is~~

Also, my memory is excellent, though not perfect, this description of assassination in that Newsweek:

~~is~~ " You can't say Dallas doesn't love you today, Mr. President."
Crack! The roar of an assassin's bullet split the air.
The President of the United States was dying.
Crack! Crack! Two more.....

Also a cropped photo of of the couple ~~and~~ shielding ~~the~~ their ~~is~~ children on the knoll appears in that Newsweek I remember. Cropped is the men in the white car pointing to the knoll.

I enjoyed the Groden book, Case for Conspiracy. Glad it was dedicated to you. Those photos of the knoll in ~~color~~ color must include assassians. Pictures don't lie unless they are made too. I say, we don't need Itek and Gonzales and Sprauge, you've earned the right to go into the "truth of the Archives" and if its going to cause a nuclear war over Cuban involvement or whatever, of course we don't need to be told but we should all insist that ~~you~~ you be told in our stead, if the Public in general can't know the truth, its time the President's men confess the absolute truth to you and you alone, and I for one would be satisfied! Even if you would never chose to print it.

You were mentioned in the Sacramento Bee when Sprauge was appointed and were quoted as saying "Conflict of interest." You appeared on some interview ~~show~~ show last week according to TV Guide but I just don't get the channel.

Listen to Max Brussels on Radio when I can. She has very high praise for you, Mr. Weisberg. However there is something about her "John Birch conspiracy-type-government theory" that disappoints. She is located in Carmell, Calif.

There is so much I could have done but for my personal problems, Sir. Though I would never take the lead by name in this endeavor, I wish I could do and have done more.

That ~~is~~ Groden ~~is~~ analysis of the Z film was ~~is~~ pure Whitewash 1 and 11 from the shot "probably shot just before frame 190" to the Phil Willis photo demolition of the Commission's case. However, I did think he did a good job and ~~is~~ now the Public has what has to be assassians. I, however have ~~is~~ always had reservations about that Nix photo.

Isn't it exciting to realize that more photos are bound to come out in ~~is~~ time to come? I never thought I would see even indistinct questionable pictures of grasy-

(over)

knoll gunmen, but there they were!

Frankly, Sir, the most ridiculous thing I ever read was Hugh McDonald's book on Saul and the "Appointment in Dallas." I enjoyed it but think he was trying to make money.

Appreciate a one of your xeroxed notices of your next book. There is absolutely no need to answer my letter otherwise. Perhaps I can do more in the future. I read everything on the subject and have a pretty good memory, but I can't seem to get going health-wise to put it to your assistance.

The Government must have more photos. There is Mary Mookman who didn't make it and probably many more including reliable photos of the gunmen even now that Itek could discern from the photos we have. Not to say what ~~has~~ hasn't been seen.

Once again, Sir, Don't answer this letter except to send a mailing list notice of my new book since "Cover-Up Smashed". I know you are busy.

Take care of your health and I honestly may have something of interest to say in my next letter that is incredible. ~~see~~ Well..... briefly, Dr. Walter Bromberg conducted my psycho-therapy group during 1973 to 1974 at a daycare program at a mental health clinic.

Walter Bromberg is an elderly man, very famous author and Psychiatrist, wrote textbook "Mind of Man" and many others. He has lectured on the criminal mind as ~~was~~ well.

Fact-Walter Bromberg was called into Dallas and examined Lee Harvey Oswald for the Government! I am not lying and-or making this up. Said that he would not talk about it in group (probably under orders) but said "He ~~is~~ did it." All the time shaking his head yes, sort of like he knew ~~that~~ it was perhaps a case. He ~~is~~ did say in seriousness that Oswald was a sick man. That he could tell that.

Bromberg is in his ~~mid~~ middle 70's and is something of an old rouge but what I state above is true.

Take care, Sir.

Sincerely,

Terry Hamblen
