

5/5/94

Dear Mr. Haneke,

Thanks for your letter and the SASE.

I wish I knew with certainty when NEVER AGAIN! will appear. Last I heard, this September, but no sign of which I know that it is being prepared for that.

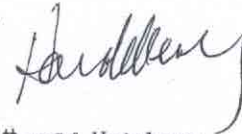

But as I was not able to do a thing about 75-80% of what I wrote being eliminated from Case Open, nothing I can do about that.

It could have appeared before Posner's did if the publisher had wanted that. I had it written in time for that.

But I had and have no influence on when what will appear.

I've again been encouraging them to hasten it.

Many thanks, sincerely,

Harold Weisberg

Dear Mr Weisberg,

I have been an avid student
of the murder of John F. Kennedy since
the very day it occurred (when I was
18).

In the course of the last 30 years,
I have read every scrap of paper, book
and article I could lay my hands on
regarding the case (including the 26 volumes).

I own copies of all your books,
including the recently published "Case Open"
about Mr Posner's book.

To me, the J.F.K. murder let "bits
out of the bag" in this country that
are still flying loose. That case will
always be open and the truth certainly
does matter.

I noticed in "Case Open" that you
will have another new book coming out
called "Never Again"

May I politely ask when your
readers may expect to see your next
book in the stores?

Thank you for your kind attention.
My hat is off to you for your
tenacity and your contributions to the search for truth.
Yours very truly,

Donald A. Hunt

P.S. I enclose a stamped
envelope for the convenience of your reply.
