

27th June, 1978.

Dear Harold,

At last I've managed to get hold of a copy of Epsteinstinker's interview in the ^USunday Times for you..and hope its of help. All of us here were so angry at the absolute nonsense of the thing that we all wrote in to the Times...they published one letter by Eddowes which supported Epsetin's stuff with a nasty bit about he being the first to "discover" LHO was a KGB agent! We are still seething at the cover-up by the Sunday Times.

Tony Summers address will follow soon..I've written to Ireland for it. And all of us are behind you in your work of course. I have always been one of your greatest admirers and feel you do not get all the credit you deserve.

I am astounded at the cost of LHO IN NEW ORLEANS..and began to re-read my copy as soon as I got your letter. You were always miles ahead of everyone else in your knowledge and with the revelations which came out with the Church Report, how positively correct you were then... not that I needed a Report to convince me about anything you state!

I will dig around for everything I can reported here about Epstein and send it on. Harry Irwin & I are doing a poll on how much space he was given when his book came out...want the results? Its enough to make one sick -but then, they had to retaliate when my articles were published way back in October '76, even though the chap who re-wrote my work made a nonsense out of my factual material. Keep plugging...we'll get there yet...

Best wishes to both

A you - Hazel.
