Dear Ron.

Enclosed are ann electrostatic copy of the second half of what I sent you yesterday and two NCR copies of this entire addition. This completes the three sets I have sent you.

The first page of the electrostatic copy will fit on the last page of what I've sent you, should you desire that, as for, perhaps, showing to some TV people, if you can end think it may work. I've heard nothing from CBS, by the way.

I sm sorry the electrostatic copies are not more distinct, but the only paper I Maye is out of date and I cannot, now, replace it. If you want more copies and your xerox cannot reproduce these clearly, if you will let me know I'll make whatever you want from the master, which is clear, and they will be as good as the enclosed.

Bearing on what I've been trying to tell you, that this work has potential of great importance for people immediately in confrontation, I had a fried approach one of the lawyers involved. He agrees and will be in touch. I have just a brief message by phone. More is in the mail. If there is enything in the letter you should know, I'll burden you with jt (I regard you as much more than a literary agent). However, this will also require that the book appear. In some form, and soon. Of which there is now no probability.

This does not give you the appendix, which is not complete and also recuires some annotation and which, eside from an importance I believe it has as a record and the attractiveness it can hold for some prospective purchasers, should be included for the benefit of those in need. One can be Hilliard, in San Francisco. His lawyer can use this documentation. I do plan some notes to update the date on fascists in the first part (not essential). And the index iswabout half on cards. Enormous.

Hope you all have a good holiday.

Sincerely,
