

Mark Holeen

2/27/69

Dear Gary and Paul,

It seems to me that when I was taking a hasty glance at the material Gary ordered from the Archives I noted the above name. I intended returning to it as soon as the immediate pressure was off but that lasted until after I had sent this material to Paul. I am interested in the man, an employee of Cargill's, living in New Orleans.

A young woman of whom Gary knows, probably a "pathological liar", has nonetheless led me to some of the more important knowledge down there. I have not been able to pinpoint her sources of good leads, of which there were an incredible number. I have known from the time I first met her that she was going with Holeen for a couple of months, possibly staying at his apartment.

If his name is in any of these documents, as I seem to recall, or appears anywhere else, I'd appreciate knowing about it.

It will now be difficult to get a dependable source to go further with any of this in N.O., but I'd like to be in a position to.
