

September 23, 1968

Mr. Harry Hoxsey  
5206 Shadywood Lane  
Dallas, Texas

Dear Mr. Hoxsey,

I am the author of a number of books on the John Kennedy assassination and its official investigation.

Yesterday I made a broadcast on Washington-area Radio WAVA. Someone who knows you phoned to tell me that you were present on the Triple Overpass on November 22, 1963 and saw the shooting.

I am, therefore, writing to ask for all the information you can supply.

Please include who was with you, where you were, what (and if possible, who) you saw, with as much detail in description as possible, its effects, what then happened, who went where, whether or not you were thereafter interviewed by any official and, if so, by whom and when.

If you are not familiar with my work and beliefs, it is I who first said the Warren investigation was a whitewash, protested federal violation of the rights and responsibilities of the States, and have since continued his investigations.

A number of fine Dallas and former Dallas people have been helpful to me in trying to establish the truth. I hope you also will.

Among the things you may have observed are those who took pictures. We have located an enormous number of pictures suppressed by the government. One who has not been located is a woman said to have been on the overpass, taking motion pictures. If you can shed any light on this it could be very helpful.

Thank you very much for any help you may offer or any suggestions you might make, including those to whom you might refer me.

Sincerely yours,

Harold Weisberg
