R& G- Hunt docs

In filing the documents of which I sent you a list yesterday I noticed a few interesting things none bearing on any possible connection with the assassination.

CD1306:103-5, is identical with CD1267, all three pages. They are xeroxes of the same original.

~~CD105:368~~ CD 1478:43 and CD1322c are both interviews of Robert Craven having to do with Ruby's hiring of Crawford, adding nothing.

CD105:368 says quite the opposite of CD1267, the first saying Ruby was arranging for Connie Tremmel Penny to see Lemar Hunt and the second saying Ruby did not know him, wanted to meet him, and she had made the appointment herself.
