THE DRIVE FOR POWER

by Arnold A. Hutschnecker, M.D.

Arnold A. Hutschnecker is the internist-turned-psychiatrist who burst into the headlines when it was revealed that Richard Nixon had been his patient. Now "Hutschie," as he is known to his friends, examines political leaders and private citizens alike in a riveting study of the complex drive for power he maintains is basic to all human beings.

THE DRIVE FOR POWER may well be one of the most important books you will ever read. It will enable you as a citizen to recognize the drive for power in politicians and know when it is dangerous or destructive. It will enable you as an individual to understand your own drive for power and use it successfully.
