

4/29/68

Dear Lou,

I'd appreciate it if you could get your set of the pictures of the Davis came together for me, and of the McLaney house. I have been thinking about the description of the location. Kids walk aimlessly, having less on their minds than adults, and it is not impossible that some of the identifying characteristics I now have on tape may be visible in some of the pictures, especially if it had screens.

Also, please do not forget the set of identification pictures for me, including those marked by D.

I have just seen the Times-Picayune story of the 25th on King. The description of the New Orleans industrialist, if it is for real, fits Lou Davis. If this is the case, it might make sense of something Barbara told me, that his phone had been disconnected.

If Mor does not have the Boatright picture, another possibility just occurred to me. There was one other person in my room. There were times I went into the bathroom. And I mean only one other person who was ever there alone. My last recollection of that picture is that it was lying on top of the bottom part of the attache case, which was open on the bed before we went over for breakfast, when I closed it.

If there is a set of reports on the camp(s), I'd like to have that them.

If you do not have the newspaper stories, please phone Mrs. Lillian Bisso, 861-9162 and tell her I asked you to ask her to search the newspapers for all stories (circa 7/31/73 for me and to get me copies and copies of pictures. There is a certain amount of fitting between what I have been writing you the last few days and the stories I got from the Pena people two trips back.

Sincerely,
