

6/7/71

Dear Lou,

While waiting a long-delayed phone call from the doctor who examined my wife when she fell last week and got up with a lump the size of a baseball on a knee (she's not been able to walk since but seems to be getting along okay), I decided to read what I had recently been given a combined review of Jim's book and what takes more space in six pages of the weekly publication of the University of Penna. student weekly, interview with and comments by Salandria. The issue is dated 4/29. With a tabloid-sized page, that is lots of words. And some words. I thought you and maybe Moo would enjoy a few, so while I wait:

"No", Salandria said, 'I'm not a nut. One of my great strengths is that I know myself very well, and I'm not a nut. I arrived at this scientifically. I'm not crazy. It makes a lot of sense.'"

The Kennedys made a deal with LBJ for him to step down for Bobby, which is why Bobby was killed, too.

"Salandria asks how a 'bunch of revolutionaries in residence' could devise a plan to rob files from an FBI office without the cooperation of another intelligence agency - the CIA'." And this is bad because it is being used to "attack J. Edgar Hoover." For real.

"We should keep Hoover in ' cause instead we might get some guy who works for the elite".

"But, as Salandria is quick to point out, Vietnam is not a crucial issue. (Maybe he helped with Jim's book, but did he understand it?)

"When America embarked on its raids into Cambodia last Spring, Salandria believes, 'Nixon did not want to fo it.'"

"Salandria, who describes himself as a conservative..."

"The drug culture, he claims, is ~~the~~ a product of the CIA". (Guess he had CIA friends?)

This morning's Jack Anderson column, on Whitey Partin, reminded me that you have not yet sent the picture of John George Whitt I asked for. If, as you say, Jim hasn't out the word out, how is it that I do not get something as simple as this, or those NOFD IU reports on Ferrie and Oswald that Moss did promise?

Kind like waiting for a doctor to call back today.

Best regards,
