Lou, 8/17/71

I held this up to use the clipping in some writing. I will want it back to support that writing. The Mitchellisti are dangerous people.

In the convention of the American Association of Criminal Defense Lawyers at Hyannis, Mass 7/1 the same thing was said more strongly by a convention speaker, a professor of law at Georgetown. He accused Mitchell of administering lawless criminal justice-of violating the law. The clipping I have is too small to tell you more than this. But should you want these things, the associations have their Proceedings printed.

My documentation of this in my book on the King assassination, FRAME-UP, is overwhelming. I really pin a frame on them. In my suit to get the suppressed evidence of a public trial, they never once wrote a truthful letter or file a truthful pleading-not even one time-and wound up with a needless perjury, not even denied when I alleged it. For the first time since another Mitchell, A. Mitchell Palmer, Hoover has a man to his liking, a guy who sees it as he does. And since this book I have proof that the FBI has and has suppressed totally exculpatory evidence on Ray. I tried to interest Bailey, who had been a friend of King, without success. Had he done something it would now help you much. It can still be sued to show how they fix it to frame the accused...I haven't sent anybody copies of the book because the publisher seems to have been reached. I haven't even gotten almost half of my "advance" and the copies I have I have to buy. If anybody wants one, they cost me, including postage, about \$6.75...Some of this happened in your jurisdiction and Pitchers, but I think you understand how I'm not again going to risk some of the hazards of the part with irresponsible use, especially not as long as there is a live defendant who will be acquitted without question if we can get him a hearing. ...At some point on a few aspects I may be asking a little minor help from you...With all of this DJ pretense of being after Marcello, let me ask you this (and please tell me): has anyone down there, your office or the PD, kept records of who Marcellos regulars are? Names, addresses, phone numbers, pictures, etc?
