# JFK Honor Guard

Vol. 1, Issue 2, June-92

HI ALL!!

- \*Here we are again, alREADy!  
It hardly seems any time at all since I was mailing out HG#1 and waiting anxiously to find out your thoughts!
- \*Thank you for your nice comments. I appreciated them!
- \*I've received several suggestions for HG columns etc and as time goes on, I'll incorporate many of them our HONOR GUARD. Thank you for your input.
- \*As mentioned elsewhere in this issue (AND in land-AND E-mail!!!) you may begin at any time to send me what you would like to see printed in JFK HONOR GUARD.
- \*Having some material in hand will help me settle on a theme for each issue, and that will make planning and lay-out more efficient. Then I'll only have to ask for a bit more to fill an issue.
- \*Be advised I don't like to cut/edit what you'll personally write to share with us -but I find I may have to be doing that, due to space limitations. If so, I'll do my Novice Editor's best to relay your meaning.
- \*In the next issue, I'd like to include as many addresses for books/audios/videos/newsletters, etc., as you'll send. This will help "old-hands" and new ones, also!
- \*When writing for info from any mentioned in this issue -mention JFK HONOR GUARD?

## Researcher Directory

Gordon Winslow is updating the Researcher Directory, which is provided to join researchers with common interests. July is the target publication/distribution date for the updated 1992 edition.

An alphabetical list of researchers will be included in the new Directory. Along with the subject and name lists are listed newsletters, publications, book dealers, repositories & radio programs.

The Directory now contains nearly 2000 subjects and names, and the number of listings of quality JFK researchers has increased. But we're reminded that while the Directory contains topics of interest to JFK researchers :

### **IT IS OPEN TO ANY HISTORICAL OR POLITICAL TOPIC**

Also, computer users are now identified, because a number of indices are in use or becoming available to assist those who use computers in their research.

Fortunately those who missed the 6/15/92 deadline will have a second chance!! **HGers** are advised if they contact Mr. Winslow BEFORE July 15, we can still get our 1992 copy of the Directory. Slow Pokes will have to wait until next year, so we are encouraged to reserve our copy as soon as possible.

This directory is not for sale, but is available only to persons listed and responding to Mr. Winslow's 5/14/92 memo, or are new listings.

The cost of this Directory is 10 first class stamps, or \$3.00; or Canadian \$4 (U.S.), Send the following information to add your new listing, or update your past one:

- A. Name, Address, City/State/Zip
- B. Contact phone number; Best time to call  
(either A or B or both)
- C. Subjects of research/interest: limit of ten.
- D. Names: limit of 26.
- E. Indicate if you use a computer in your research.

## BEST EVIDENCE NEWSLETTER

While David Lifton gives an interesting review of his work since 1981 when Best Evidence first appeared as a McMillan hard-cover, due to our limited space, I'll just note his current projects. Mr. Lifton is working on a book on Lee Harvey Oswald; and a sequel to Best Evidence; also on a full scale documentary film. He ends his informative note in the B.E. Newsletter by telling us that our letters and phone calls continue to be an important source of support and encouragement. He adds he is grateful for these & for our continuing interest in his work.

## THE MAGIC BULLET

### 6.5mm MANNLICHER CARCANO Bullets

Commission Exhibit #399  
Bullet found on stretcher

The Warren Commission concluded that the bullet that was reportedly found on a stretcher at Parkland Hospital, was fired thru a Mannlicher Carcano rifle by Lee Harvey Oswald from a sixth floor window of the Texas School Book Depository Building. The bullet passed thru President Kennedy's neck, thru Gov. Connally's chest, thru Connally's wrist and into Connally's thigh, and ended up on a stretcher that had been used by Gov. Connally. The Warren Commission gave this bullet Commission Number Exhibit 399.

Commission Exhibit #856  
Bullet from Dr. Olivier test

The Warren Commission had Dr. Alfred Olivier testfire Oswald's rifle thru different objects. A bullet was fired thru a human wrist doing damage close to the damage done to Connally's wrist. When asked to compare that bullet to Exhibit 399, Dr. Olivier said, "It is not like it at all, I mean, Commission Exhibit 399 isn't flattened on the end. This one is very severely flattened on the end." This bullet was given Exhibit #856. (Hearings Vol. 5, pg. 82)

The assassination bullet and the bullets used in the above tests were manufactured by the Western Cartridge Company in 1954. They are not available now at normal outlets. The Western bullet weighed 161 grains and had an open base. The Hornady bullets in the packet weigh 160 grains and have a closed base.

On the following 2 1/2 pages are the beginnings of our Dead List.

<u>TITLE</u>	<u>AUTHOR</u>	<u>DEAD LIST CODE</u>
Conspiracy	Anthony Summers	CON
Accessories After the Fact	Sylvia Meagher	ACC
Crossfire	Jim Marrs	CRO

Be advised that I haven't quoted these sources exactly. Space & computer program limitations necessitated much whittling but I've tried to retain the Authors' meaning. References to some victims are mentioned in more than one of the above books, usually with slightly differing information. I have NOT combined two books' entries, and have only printed one source, & page number.

I would like for any of you to landmail me additions to the Dead List, citing the source & author, page number, cause of death, and the victims' relationship to the events generally termed "JFK assassination-related." I'll print them later.

#### ASIDE:

I typed in more than 143 entries, containing more information than I am able to print in this issue. At one point in my typing, I realized I felt incredibly sad.... Name after name; death after death; loss after loss. So many of those listed died violent deaths, or committed suicide. I thought about the loss: for their families, and in many cases I recognized our country had also suffered loss. And, as I tried to accurately enter the data, I was bothered by the same word running its question through my mind:

"WHY??"

**COINCIDENCE**

(\*Unconfirmed as yet!)

The Warren Report states that within an hour after JFK's murder, LHO "crashed" a movie theater, which required 14 to 15 cops to deal with. Recent (unconfirmed) reports have surfaced that the National Archives holds an inventory of the contents of LHO's pockets, at time of arrest.

According to the reports, one inventory item listed was a 75-cent ticket stub. Further information from a researcher is that an employee of the Texas Theater recalled selling LHO a ticket that day, sometime between 1:00-1:06pm. The WR states Officer Tippet was shot at 1:16pm.

These reports are awaiting verification by the National Archives & other sources.
