Dear Jim Garrison

Louisiana
By the time this letter reaches you we will have spoken on the telephone. I hope that your notes on the code we set up are still available to you.

In that regard I would like to say that if we should misunderstand each other on the phone tomorrow Tulsa is Mexico City.

I have been discussing the lead we had on Sigma Chi with Turner and he feels that that might be an extremely valuable possibility. He is helping me to arrange the details.

I spoke to Maggie recently and told her of the new development. She is inspired by the possibility and is returning to the "books" and researching that point.

The opportunity has not presented itself safely enough as yet to see or photograph that scrapbook. I have obtained some other documents from the same source and will hold them until I am able to analyze them a bit so that I can relate to you, as briefly as possible, what I believe their value is. I am sure that after a few more weeks of this type of close observation we will have a very good incite into most of this person's present life. More about this at the end of this letter because I am to have a meeting about this in a few minutes.

One important new aspect of the scrapbook is the fact that Sue has seen a letter of Jack Ruby's inside it. She has not been able to read it because it was shown to her briefly and only to "turn her on" rather than to allow her to read it.

I have turned the entire murder case of Keryn Kupcin-
st over to the lawyer (Beverly Hills) who had offered his help. With the new development which was the subject of one of my memos on my last trip, I think there is a real possibility of finding more out about the case than we ever knew. The best we could hope for is a link to this California crowd. That would certainly place the subject of the previous paragraph in a different light than our present speculation.

I have mailed the corrected memo on the notes which we last discussed over coffee to Lerrains Lebuff. It is imperative that the corrected memo be regarded as the one for the files and not the one which was sent to me and which I believe you have

...serious errors in the first typing which
...the Sigma Chi lead the most important in terms
...I have been hoping to work on something in the
...I believe you had some instructions which you were
...about a local witness. I will be glad to follow
...will send me the details.

...trying to obtain some information as to whether or
...is a way of acquiring some records from the University
...California. If that possibility presents itself I
...ask you and ask your permission to go ahead.

There was a short possibility that Jim Rose had misrepresented
"reference", Stanley Scheinbaum, but upon rechecking the story
carefully with both Scheinbaum and then with Rose (he didn't know
was checking) I am still convinced as is Bill Turner (he is firm
as this) that Rose is a valuable and truly dedicated asset. He
has proved this by his actions thus far. He has no knowledge that
would be harmful to our work or the investigation nor does he
ask any. I hope we can get the project done with the most beneficial
 haste and I know I have your confidence on this.

BINGO! I mean this in the traditional sense of the word.
Sue was invited to a dinner at the local man's house. She
...and without prompting she found the discussion switching
"this Garrison thing". She quickly told the assemblage that the
...thing she felt "Garrison will do is to say Governor Reagan is
involved." While that passed as a tremendous put down at that gather-
ing in other more informed circles that might be a distinct possibility.

The outcome of her visit was that the secretary and Sue be-
came good friends. The man became very excited at the subject of
discussion and showed Sue several exhibits of his own collection.
One of them was a xerox of an original Jack Ruby letter as mentioned
above. I have never heard of such a letter but I will let you judge
by the following short passage that Sue was able to read whether or
not this is one of the letters which has been published before.

The letter was a five page letter although he only showed
Sue pages one, three and five saying that he'd lost the other two.
The letter began,

"Dear Jim,

Call KLIF. Do not talk to anyone but Gordon
McLendon. Tell him I've been framed....."

Further toward the end of the letter, Ruby continued:

"you and I both know that when Oswald took the job
at the Book Depository he could not have known of the parade route,
only the people in D.C. knew then."

I feel that if this idea could be put
some of the time consumed in problems of personality and
which should not hamper such a small staff of such great importance.
I think that the critics are a most important group of counsel
able, as I know you do, and I feel that if there is talent
it should be given some attention. Your time is taken
if you were the entire faculty of a University but you
we must try to avoid every minute of time wasted. For
this investigation so strongly on your shoulders
...and anticipate... avoid future problems
...productive way.

From: Jaffe

she was able to determine the following

not one scrapbook but a whole shelf full of complete with photographs of many of his movie friends with himself. He is really ego stricken and these photographs are his "badge of courage."

one of the scrapbooks is a glossy photograph of the mugshot made of Lee Harvey Oswald when arrested in New Orleans. Sue said that the number on the card in front of Oswald is #112723 and the date is August 9, 1963. Is this correct?

What's most important about this photograph is that is signed, "To my friend R.L. Don't let this happen to you! (signed) Clint Murchison" !!!!

- 3) The majority of his files are in a private office upstairs which is off of the bathroom and would not usually be noticed. It looks more like a door to a closet.
- 4) At the dinner was a man named Milt Scott who lives in Hollywood on Stone Ave. He had been at a party at the home of:

R. Mitchell McClure
Rancho Camarillo
Sand Canyon Rd. (off Los Angeles Ave. Near
Somis, between Moorpark and Saticoy Aves.)
Camarillo, Calif.
Phone Numbers: 482-3540
482-3016

(See Memo on Sue's new information about the Kupcinet case.)

at this party in 1964, shortly after the murder of K. Kupcinet, Sue and Scott discussed this murder because he had been a close acquaintance of Karyn K.'s. There is a possibility that Karyn Kupcinet was at a party at McClure's when she made that phonecall because this is a favorite party place of our local group. Kupcinet was definitely a member of that jet set.

- 5) In addition to the scrapbooks L. has a stack of address books. They are all numbered and coded in some way which is indicated by the markings on the covers.
- 6) When L. was showing off some of the objects in his

overheard a discussion between L. and someone
other end of a phone line. (I will check this)
saying that someone had ordered "the guys arms and
legs broken and bust up his store." L. was speaking
about someone in town. We do not know who. Evidently
as the conversation continued Sue heard that, St-Bartlett
had phoned a man named Rudy Diaz* and had the pending
attack stopped because of the "headlines" it might cause.

3) L. is retiring sometime in the future and leaving
the country for Switzerland.

9) As stated in my memo concerning the Kupoinet death
the mention of a doctor named "Max" was important.
Tonight Sue overheard a conversation that indicated
that "Dr. Max" had been put in "bad shape" because
of his "mouth" and that "he'd better straighten him-
self out soon."

Jim, rest assured we will not let up on this for
a second except to pursue that other project which, if completed,
would yield such valuable information that it must take priority.

I had thought a week ago that the most we could
develop with this guy locally was an association but now I'm
beginning to think he might have some possessions which would
indicate a real inside track.

After my last discussion with Louis I feel that
his caution in not accepting outsiders easily can only help. I
think that the intense pressure is certain to yield emotional
reactions in everyone. The fact that he made me think much more
intensely in terms of proving everything that I say can only help
me. I only hope that if he ever realizes that I am not a liar he
will tell me because it is good to have the support of people one
works with and having Mort down on me is bad enough.

Speaking to you of what I saw when I thought I
was being followed could have been either overcaution, paranoia
or the truth. I thought then it was better to relate it than to
keep it to myself. I think in the future the opposite is in order
until I can prove my suspicions. I have stopped suspecting for
now, nomatter how strange the coincidence. (i.e. our second Jaguar
was stolen out of the garage Feb. 1st).

Most Sincerely, *SM*

P.S. Everyone thought the Carson show was
the strongest public victory yet -- nothing but much new support.

I feel that if this idea could be put
some of the time consumed in problems of personality
which should not hamper such a small staff of such great importance
I think that the critics are a most important group of people
people, as I know you do, and I feel that if there is discussion
then it should be given some attention. Your time is taxed

THERE IS (MAYBE IN L.A.) (NO CONFIRMATION)
