Jim Mckinley phoned tonight to say that Playboy's interest finally appears to be firm. I expect to her from him tomorrow or Sunday about his coming with the Playboy managing editor, described as a strong skeptic. The deal would be for a JFK and a King article minimum.

I stipulated as my minimum condition publication of the unabifdged Post Mortem, minimum 608 pp, with all ancillary rights thrown in under normal terms and adding a popularization/ comdensation in inexpensive haddback. For this 1 set as my one firm condition fidehity.

He knows that by prior arrangement Martin is coming nd has agreed to my trusting Martin to confidentiality, telling him of this Playboy possible arrangement and offering it if that fails. He knows that I've been talking to Mo about this since Hemphis.

I told him that hay stuff would have to be my own work or what is in court record. He seems interested in separate story on Battle's death but this does not mean Playboy is mix.

My Hermes has never had a checking over and cleaning up since I bough it. For some things I'd also prefer a pica machine. This is an old partable sans case. If I like it and it is chep enough, I'll get it not then there will be smachine here for you and "hike to Use when you may wan t one here.

Pica and triple-spacing are also better for manuscripts.

Cnly once I got used to it I got to love that small-faced Hermes!

If I had the money I'd get a Hermes Rocket in Pica. They are no longer imported. They are small enough to fit inside luggage and are tough.
