(1970) 72 pp., \$1.50. We need to understand the structure we're fighting & this is a valuable tool for those without power to (1) identify the people & institutions which make our lives intolerable, (2) locate the weak points in the system, (3) suggest a strategy for realizations, (4) propel ourselves and others into a higher consciousness of where the "nodes of power lie and how they function." Offering methods that range from back room investigations to the use of establishment sources and trade magazines, N.A.C.I.A. urges the study of Elites, Political Parties, Corporations, the Media Empire, Labor, the Military-University-Industrial Complex, Police, Church, the Health Industry and Imperialism. Highly recommended. Learn to see events not as isolated unrelated and spontaneous - but for what they more often are: inter-related, premeditated and carefully staged and manipulated "pseudo-events". Discover for yourself that paranoia is just another name for heightened consciousness...and also the fact that even paranoids have real enemies. Assassination is only one aspect of conspiracy in America today.
