Dear 'ir. Kencht,

Thanks for your letter of several days ago to which I can make only brief reply. My next book is too far behind scheulde for extensive correspondence.

We cannot tell where Altgens was at Frame 255 by where he was at 313 or any later point. There is reason to believe he may have been more onto the grass than he recalled, perhaps where his bag was.

The contion on the picture was written in too-great haste and makes a positive statement I should not have and and did not intend making unequivocally. Examine it as the text states it: If Liebeler is right than the other things now follow. Now I ask you to recall all the evidence mustered on the things every lawyer knows batter than to do, the thing every lawyer knows to do, and compare with what Liebeler did and did not do with the various photographic witnesses. My point is the integrity of the evidence, for both the Commission and us.

I wish I had time to go into this at greater length but just cannot. The entire mess woth pictures is far from public. I will have much more in WHITEWASH III.

Thanks.

Sincerely,

Harold Weish rg

MR. HAROLD WEISBERG:

I HAVE JUST FINISHED READING
WHITEWASH II. I AGREE TOTALLY
WITH YOUR STATEMENTS PROVING THAT
WILLIS'S FIFTH PICTURE CORRESPONDS
TO ZAPRUDERS' FRAME NUMBER ZOZ.
I ALSO AGREE THAT IT IS PROBABLE
THAT THE PRESIDENT WAS FIRST HIT
PRIOR TO FRAME ZOZ AND AT OR
NEAR 190.

HOWEVER, I MUST DISAGREE COMPLETELY
WITH ALL YOUR AWALTSIS DESCRIBING
THE ROAD STRIPE, UISIBLE UNDER THE
CAR CARRYING THE PRESIDENT, AS
BEING THE FOURTH ONE ON ELM
FROM HOUSTON.

YOUR ENTIRE ANALYSIS IS BASED ON
LOCATING ALTGENS OPPOSITE THE
FIFTH ROAD STRIPE. THE FACT THAT
LIEBELER PLACED HIM THERE IS
MEANINGLESS, AND YOU, OF ALL
PEOPLE, SHOULD KNOW THAT. ALTGENS
WAS, IN FACT, PAST THE SIXTH ROAD
STRIPE AND PROBABLY HALF WAY
BETWEEN THE SIXTH AND SEVENTH,
ON THE SOUTH CURB.

ALTGENS DOES NOT APPEAR IN THE ZAPRUDER FRAMES UNTIL AFTER FRAME 334, BY YOUR OWN ADMISSION. HOWEVER, THE CAR WAS DIRECTLY OPPOSITE ZAPRUDER AT FRAME 315. DIRECTLY OPPOSITE MEANS THE CAR AND THE SOUTH CURB ARE PERPENDICULAR TO ZAPRUDER'S LINE OF VISION. IF THE SOUTH CURB IS PERPENDICULAR, SO IS A ROAD STRIPE (OR A LINE BETWEEN STRIPES). NOW, LOOKING AT THE AERIAL PHOTO ON PAGE 247 OF WHITEWASH IL, A LINE PERPENDICULAR TO THE SOUTH CURB PASSING THROUGH ZAPRUDER TOUCHES THE EAST EDGE OF THE SATH ROAD STRIPE. SINCE ALIGENS APPEARS AFTER FRAME 315 (IN FACT, AFTER 334), HE IS DEFINITELY OPPOSITE THE SIXTH ROAD STRIPE OR FURTHER WEST. IF 340 IS A GOOD APPROXIMATION OF THE FRAME THAT CENTERS HIM (THERE IS NO WAY OF BEING CERTAIN) ON THE TOP LEFT OF PAGE 27 OF THE NOVEMISER 29, 1963, ISSUE OF LIFE MAGAZING, HE IS 25 FRAMES PAST ZAPRUDER AND PAST THE EAST EDGE OF THE SIXTH ROAD STRIPE. AT 18.3 (OR 24) FRAMES PER SECOND, THIS IS 22 (OR 16) FEET AT 11.2 MPH. CAR VELOCITY. THE STRIPES APPEAR

AND THE SPACES BETWEEN STRIPES
ABOUT ONE AND A HALF CAR LENGTHS.

AN AVERAGE CAR LENGTH IS ABOUT

15 FEET, THUS ALTGENS IS AT LEAST

ONE FOOT (OR 7 FEET) WEST OF THE

WEST EDGE OF THE SIXTH ROAD

STRIPE. THEREFORE, HE IS BETWEEN

THE SIXTH AND SEVENTH ROAD STRIPES.

"FURTHERMORE, I BELEIVE CALLING

THIS FRAME 340 IS CONSERVATIVE

AND IT IS PROBABLY CLOSER TO 345.

FURTHER CORROBORATION OF THIS IS THE ALTGENS PHOTO INSELF. AT THE BOTTOM RIGHT HAND CORNER OF THE COMPLETE PICTURE (PGS. Z44 AND 245, WHITEWASH I) ONE CAN SEE THE CURB (SOUTH) LINE AND THE LINE MADE WHERE THE CONCRETE MEETS THE ASPHALT (A FOOT OR TWO DUT FROM THE CURB). THIS CONCRETE -ASPHALT LINE IS DEFINITELY "S" SHAPED. AT THE VERY BOTTOM, IT IS CURVING BACK TO THE LEFT. THE ONLY WAY THAT THIS INFLECTION IN THE CURVE (THE MID-POINT OF THE "5") COULD BE VISIBLE IS FOR ALTGENS TO BE STANDING WEST OF THE INFLECTION, AND BY QUITE A DISTANCE AT THAT. THE POINT OF INFLECTION, FROM THE

AERIAL SHOT, APPEARS OPPOSITE THE

WEST EDGE OF THE FIFTH ROAD

STRIPE. IF YOU PLACE A HORIZONTAL

LINE (PARALLEL TO THE BOTTOM OF

THE FRAME) ON ALTGENS PHOTO,

THROUGH THE WEST EDGE OF THE

STRIPE THE PRESIDENTIAL CAR IS

ON, YOU WILL NOTE THAT THIS

ALSO PASSES THROUGH THE MID
POINT OF THE "S". THUS, THIS

PROVES THAT ALTGENS IS UNDENIABLY

QUITE A WAYS WEST OF THE WEST

EDGE OF THE FIFTH STRIPE AND

THAT THE STRIPE UNDER THE

PRESIDENTIAL CAR IS THE FIFTH.

(F YOU LOCATE ALTEGNS BETWEEN THE

SIXTY AND SEVENTH STRIPES, &N THE

CURB (IN THE AERIAL PHOTO) AND

LINE IT UP WITH SOUTHEAST CORNER

OF THE DEPOSITORY BULDING, YOU

WILL CROSS THE FOURTH ROAD STRIPE.

IF YOU DRAW A VERTICAL LINE ON

THE ALTGENS PHOTO ALONG THE

SOUTHEAST CORNER OF THE DEPOSITORY,
YOU MUST, THEN, CROSS THE FOURTH

STRIPE. YOU WILL SEE THAT WHERE

THE FOURTH STRIPE SHOULD BE THE

FOLLOW-UP CAR IS. OBVIOUSLY, THE

FOLLOW-UP CAR COUERS THE FOURTH

STRIPE.

IT SEEMS TO ME THAT THE ENTIRE
ROAD STRIPE DISCUSSION IN BOTH
WHITEWASH AND WHITEWASH IT WAS
AN UNNECESSARY DIVERSION AND
HAS MOST PROBABLY LED MANY
PEOPLE TO A WRONG CONCLUSION.

OTHER THAN WHAT HAS BEEN DISCUSSED ABOUE, I HAVE ENJOYED YOUR WORK (AND YOUR TALKS ON HARU MORGAN'S SHOWS) VERY MUCH.

I NOTICED THAT YOUR EPILOGUES
GENERALLY DISCUSS RECENT WORKS
AND STATEMENTS BY PEOPLE
CONCERNING THE REPORT. I SUGGEST
YOU MAY ENLUEN THE EPILOGUE
TO WHITEWASH III (IF THERE WILL
BE ONE!) WITH A BIT OF LASHING
OUT AT A BOOK IVE READ, "THE
TRUTH ABOUT THE ASSASSINATION",
BY CHARLES ROBERTS. IT'S
UNBELEWABLE!
