

8/4/67

Mr. Bob Walsh  
KABC Radio  
Los Angeles, Calif.

Dear Bob,

This letter serves two purposes that will become clear.

That long night and early morning you and several of the WNAC newsmen and I spent in the next-door bar may be historically important. Bob Scott was fairly well briefed on the story of The False Oswald and those who were part of it. Nine days later, when the Garrison investigation, of which I then knew, having helped it, suddenly became public, Bob was on the phone and interviewed Dean Andrews.

Andrews has since been charged with perjury. His trial begins Wednesday, 8/9. Bob and the tape he then made will be there. As soon as I got the tape I realized its importance and sent it to Garrison. Bob will be a witness.

In this interview, Andrews, in effect, forecast his own perjury and, in the language he uses so expressively, explained what to him were the compelling reasons.

Since we met I have completed OSWALD IN NEW ORLEANS: CASE OF CONSPIRACY, to have been published by Dell, which chickened out now to be published by Parallax, and PHOTOGRAPHIC WHITEWASH: SUPPRESSED KENNEDY ASSASSINATION PICTURES, which I published. I am sending you a copy separately. This book got 44 column inches ~~by~~ as news from the New York Times and not a single mention elsewhere. It thoroughly documents the deliberate suppression of photographic evidence- even the refusal of the government to look at the available pictures. It has a picture of the sixth-floor window at the moment of the assassination, with neither Oswald nor a rifle in it. This picture was both doctored and suppressed. It shows why there is no photographic archive to the murdered President or even of his murder. And much, much more.

I would welcome a chance to bring its contents to your listeners by phone, for I do not know when I'll be in California again. You will find all of the contents new. I think it is safe to predict developments will flow from it. Some are already unfolding, coming from the last-minute note added at the only free space in the only part of the book not by then printed, the ~~appendix~~ index! Rally ~~shax~~ hand-made.

I hope you like your new position. Bob indicated it is a good one.

P.S. If you'd like to see this book before the copy I am mailing arrives, Van O'Connell, 78401312, can provide it.

Sincerely,
