WDS

Dear Mr. Helms:

The Department of State has very recently informed the Commission that it has files which include information about persons who were confined to the Botkin Hospital in Moscow during the Fall of 1959, the same period during which Lee Harvey Oswald was, according to his historic diary and information supplied by the Russian Government, also confined to that Hospital. W. David Slawson of the Commission staff discussed with Mr. Richard Helms of your Agency on August 10, 1964, the possibility of the Agency's attempting to locate and question Mr. Vladimir Boris Kura-patitskiy of West Berlin. Mr. Kura-patitskiy, according to information furnished by the Department of State, was admitted to the Botkin Hospital in late November, 1959, at the age of 40, and is now 49 years old. He, therefore, may very well be the "elderly American" Oswald referred to in his historic diary as having been confined in the same ward with him.

Mr. Slawson forwarded to Mr. Rosen via hand delivery on August 10, Mr. Kura-patitskiy's passport file, obtained from the Department of State, a Secret Service Memorandum to me dated August 7, 1964 and enclosing Secret Service No. 1480, a Secret Service Memorandum dated August 5, 1964 by Special Agents James and Hong and a copy of a letter I wrote to the Secret Service describing the work we asked the Service to do in respect to this problem in connection with two other persons who might have related to it.

Mr. Rosen told Mr. Slawson the Central Intelligence Agency would proceed immediately to locate Mr. Kura-patitskiy and carry out whatever questioning of him is deemed appropriate, and he asked that this matter be confined to you by law.

Sincerely,

3

Dear Mr. Helms:

The Department of State has very recently informed the Commission that it has files which include information about persons who were confined to the Botkinkaya Hospital in Moscow during the Fall of 1959, the same period during which Lee Harvey Oswald was, according to his Historic Diary and information supplied by the Russian Government, also confined to that Hospital. W. David Slawson of the Commission staff discussed with Mr. Raymond Rocca of your Agency on August 10, 1964, the possibility of the Agency's attempting to locate and question Mr. Waldemar Boris Kara-patnitsky in West Berlin. Mr. Kara-patnitsky, according to information ----- by the Department of State, was admitted to the Botkinkaya Hospital in late September, 1959, is an American, and is now 75 years old. He, therefore, may very well be the "elderly American" Oswald referred to in his Historic Diary as having been confined in the same ward with him.

Mr. Slawson forwarded to Mr. Rocca via hand delivery on August 10, Mr. Kara-patnitsky's passport file, obtained from the Department of State, a Secret Service Memorandum to me dated August 7, 1964 and carrying Secret Service No. 1720, a Secret Service Memorandum dated August 5, 1964 by Special Agents Thomas and Wong and a copy of a letter I wrote to the Secret Service describing the work we asked the Service to do in respect to this problem in connection with two other persons who might have related to it.

Mr. Rocca told Mr. Slawson the Central Intelligence Agency would proceed immediately to locate Mr. Kara-patnitsky and carry out whatever questioning of him is deemed appropriate, and he asked that this matter be confirmed to you by letter.

Sincerely,

(Copied, but not very well, from an almost illegible copy (page 9 of the available portion of the GA-1-CIA file) by P.L. Hoch, 7/27/69)
