HIS POSITION ON THE ISSUES IS CLEAR

VIETNAM WAR: This war must be brought to an honorable conclusion now. Far too many young men have died needlessly in the last 3 years since this war has reached a stalemate. We have obtained our objective by our containment of the communists. Let's continue to contain them by the negotiation of a peace with honor and dignity.

HIGH PRICES: Over the past 4 years inflation has continued to deprive the families of our district of their purchasing power. It is the duty of your congressman to introduce legislation and take other steps to curb inflation.

TAXES: The people of our district are being bled to death by higher and higher taxes on all levels. Your congressman should and must take measures to protect you from these unfair and unwise tax laws.

NATIONAL REDWOOD PARK: I oppose the federal government's flagrant attempts to cram this park down the throats of our citizens and to deprive them of their means of livelihood. At this stage the parks, now in existence should be developed to attract the tourism valuable to the economy of the Redwood Empire.

POLITICIANS: Status Quo Politicians with their old and out-dated ideas are responsible for the prolonged war, high prices, high taxes and our deflated economy. They have caused the despair that seeps through our district. I say let there be hope for the Redwood Empire under vigorous new leadership.
