Kellerman, second statement, 11/30/63, 2 pp

Subject is three lines long, the security messures from Love Field to Bathesds, then to White Nouse.

I also meentions the shift reorganizations, the LRJ security, the trip to the Nevy hosp.

This says the four agents also remained through the meb lming.

This one also fails to mention Burkley'd departure. It is specific in not placing him the in the embulance.

What is not clear is why it had to be written at all.
