Dear Flo,

Your student Mobilization mailing reminds me of the continuing problem of poverty. This is why + have not since been in NYC. Can you find time to answer my ~~aditer~~ <sup>aditer</sup> about the lawyers? If I can help with books, I will. Otherwise + have only debts and unpublished manuscripts.

I have finished COUP D'ETAT: I ACCUSE THE CIA. I weave much of the ~~stories~~ <sup>stories</sup> of the three major assassinations together, mentioning the thousands unmentioned, Malcom X and Medger Evers, as part of pattern. I would welcome useable material on Malcom X as a CIA assassination.

This book is, I think, an important one because it is limited in range and hits very hard and irrefutably at what was known in advance of the planned assassinations, then ignored, then suppressed. I have, I think, a fairly complete story on the Birmingham church bombing (I have to add a brief account of what happened, and here I'd welcome help from those who know the story), with names. I have the known plan to kill Dr. King, the name of the planned assassin, the fact that he had tried and not succeeded but would not give up, etc. I think it is material that the various groups could put to the most effective use, including as a means of raising funds by its sale, if I can ever get it out. I plan an appendix of photographic reproduction of the suppressed FBI reports that show what they did know about these rotten, degenerate racists -and did nothing about. I have also woven in the change of emphasis, "now we must concentrate on the Jews", not only because it is true and accurate.

I will try and get it ready for offset reproduction as we can. If I had the rather small cash required, I could have it out in a month. While I want no use made of the contents, I want you also to know that there is simple reason for connecting these awful creatures with all the assassinations and Hoover's protection, though they now curse him.

Hurriedly,

Harold Weisberg
