Washington, DC 20002

Dear Ms. Wolf,

As Jim Lesar probably told you, I'm getting along in years and am rather limited in what I can do.

In order to get something to you rapidly I enclose a copy of my letter to Johnnie Cochran with the attachments.

There is much more along the same line of the FBI and its Lab as perjurers and twisters and maker-up of "evidence" that I got from the FBI in all those FOIA lawsuits that Jim handled so well for me.

There is more of this kind of thing in NEVER AGAIN! I regret I have no copies but I do have all those and other pictures, meaning FBI pictures.

For example, on page 245 is an FBI picture it did not give the Warren Commission of the collar of the President's shirt. It and the Commission said that magic bullet exited through the collar and tie. As you'll see there are no bullet holes. Those slits were made by a scalpel used by either of two nurses named Bowron or Stenchcliffe under the direction of Dr. Charles Carrico. There is no hole of any kind in the knot of the tie. The FBI phoned up a picture on the preceding page to make it appear that there was a bullet hole in the knot.

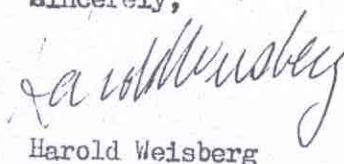

Arlen Specter, who has been silent about all my books (this is the eighth on the JFK assassination-no theories in any of them) knew all of this. He took Carrico's testimony. He knew of the phonying up of that tie picture and he knew of the clear picture of the collar because he had that record and the pictures in it.

If it interest you of CNN I have a full set of documents to establish the fact of the conspiracy not to investigate the crime with which NEVER AGAIN! begins and if any of your people are ever here they'll be welcome to copy any they want.

Of for that matter, anything I have. As a matter of belief, of principle, I make all freely available to anyone writing in the field. From about a third of a million pages I got via FOIA. All of which will be at local Hood College in a permanent public archive.

I'm sorry that travel is unsafe for me and I cannot go to Washington.

Sincerely,

Harold Welsberg
