Q Ilaler 16, 1768 Hear Hal: It will be most in convenient for me to have a great in my home at this time, due te à strange series of haps The details of which can not he discussed at alis Winting. I trust stat you will not ve too in eon venienced by thin mavoid able change in plan, Sin corely, Marge Jarone -

Dear Merge,

Thoughtfully, Deyahn had told me of your fears and Bill's misgivings, so I had already made other tentative arrangements for New Orleans
quarters. As I wrote you, these are falsehoods. However, I would appreciate
it if you'd make a record of who told or showed you what, or a copy of anything
that may have been given you or Bill, for at some point may have to take time to
try and do consthing. At least it will tell me who is up to what, in itself
potentially valuable knowledge.

This is the normal working of what is loosely called "the department of disinformation", a wholly-owned subsidiary of "the department of dirty tricks".

Meanwhile, have something from the Secret Service, in writing, about Godfray. I will have a copy for you It is an cel-like confirmation. The most remarkable part is how exactly it coincides with something he told me, about an abrupt change in his treatment, etc.

The wording of this letter troubles me deeply. They are so evasive, we best sround the bush. I have just gotten it and will have to think about it carefully, study the exact words, etc.

there

However, kaw is, I think, one very good pert about it. I think you can use it for what you would like to do. If you did not do what I earlier asked you to, when you see this you may be sorry. Among other things, you really should have a complete and noterized medical record, at the very least from the end of 1963, and it should include everything from Mandeville and Jackson. It should be sworn to, for your and Godfrey's protection, and to make any who might be tempted to lie or "forget" some items know there is the chance of a perjury setion if they do.

The Secret Service is so indirect about this, what they told me can be interpreted to relate to JFK, IBJ, perhaps others. But, the mein thing, perhaps, is that it can relate to JFK.

Sorry "heven't time for more details. Inreally didn't have time for this because I am behind in my preparations for leaving. However, eside from this news about Godfrey, I imagine you are a little embarrassed about the need you felt for writing your letter, and I do not ment you to feel that way. It is okey. Try and learn when you are being worked on. If you are to do something for Godfrey, you may have to get this kind of education.

Sincerely.

Herold Weisberg
