Dear Harold,

Jim Schmitt has identified two of the Washington, D.C. telephone numbers on your list of calls from a certain N.O. address:

456-1414 is the White House Office (source: Government Organization Manual),  
232-3092 is the Soviet Embassy (Ambassador's residence), located at 1706  
18th St., N.W. (source: Information, 202-555-1212). This number  
appears twice in Lee Oswald's notebook (16 H 40, 16 H 61).

Jim's check of the other numbers ~~gave~~ gave negative results.

We would appreciate a copy of the following documents, mentioned in your letter of July 22:

CD 1347, pages 8-15, 44-48

CD 20, pages 7-8, 24-25

Sincerely,

*Paul*

Dear Paul,

The address here is 1740 Jackson Ave., New Orleans. It is on the edge of the so-called "Garden District". I'll tell you the story when I see you. There is no doubt that at least one agent did live here. I cannot confirm the reports I have that others did and the inference from one source and the assertion from another that the men named in the attachments were agents.

Whether or not they were, and there is solid ground for belief that there was a youth-agent program in N.O., the patterns are interesting.

I am sending this in the hope that the collector of the long list of numbers will be more familiar with it than anyone else and might study the attached to see if any of the numbers are in his collection.

I think it better that nothing be said of the premises and occupants because of the possibility there might be importance and significance. A man who did threaten to kill Garrison lived there, and he did say that on the night of 11/24/63 he did meet two of those connected with the assassination.

I also stayed there this last trip!

Sincerely,

Harold Weisberg

Dear Jim,

I have been told many stories of and suspicions about agents allegedly living with Marge Kirkpatrick Jerome at 1740 Jackson Ave. While I can neither prove nor disprove these allegations in most cases, there is so much that seems dependable about other things that I also cannot dismiss them out of hand.

There are a few phone bills I was able to obtain. I have gone over them and arranged the calls by city and date. In addition to the phone numbers listed, it is possible that at one time there was another phone on the premises, with the number 525- 2738.

This pattern of these charges is interesting. While not precluded, the extent is greater than one would expect students to be able to afford. The places called, which may be social, also are interesting. I will, when I can get access to a Washington area phone book, check out the rest of these calls. But those numbers I can identify are the U.S. Capitol and the Defense and State Departments. I will let you know what else shows up. Others of these numbers seem familiar to me.

If Louis could have Jeff or someone check the Louisiana numbers it might be interesting. I would appreciate knowing the results, if this can be done, because there might be some fits with other data I have.

Note also the interesting pattern of the "Type 7" charges. It is too late at night to phone the telephone company business office, but with no phone numbers given on the bills I presume these are telegrams. All of these charges are in a short period of time. The year is not given. I presume it is 1967. They are all within a four-day period. There are three on 1/9 to Washington. On the 11th there are one each to Palm Beach and West Palm Beach, and on the 12th, one each to London and Washington. This hardly seems like ordinary student social activity, and the cities are of some interest to us.

You have duplicates of these phone bills. I left them with Louis. One of these phones was listed to T.M. Beadle, whose roommate was McIver, whose application for the NOAC I also gave you. I understand these young men were made honorary State Attorneys General on graduation.

Earlier this week I called to your attention a bill for a safe-deposit box sent to this address in the name of one Jack Tremble. I am told he never lived there, if he ever existed. Mail also was sent there for an Invesco or Investco, of which Marge had never heard. None of this is consistent with usual student life and is with that of agents.

On another subject, I have been informed of a story an editor friend assures me is the hottest that has ever crossed his desk on the King assassination. He would not reveal its author to me by phone. I will see galleys before publication. I am told it is a story of FBI involvement.

Sincerely,

Harold Weisberg
