Dear Jim *Lawrence*

Apropos of our recent conversation and my earlier letter, here is the list of names and numbers to which I alluded. They were on a sketch of what I take to be a male Apache-dancer type, signed VoSots.

Many of these numbers may not be of your area. I'd like very much to know which are not and whether they suggest anything to you.

I have no way of knowing whether Godfrey knew these people and if he did, how well, or the period in which he may have known them. They do seem like fairly prominent people most connected with entertainment. If you find anything of real interest about him, please let me know.

How recent these numbers are would also be interesting. If you can phone them and tape, I now have a machine that uses identical cassettes.

If we ever talk on clear phones, I'll tell you more. This man may be important. I think he is, based on what I now know. Including that he threatened to kill Jim (as an act of patriotism and for Bobby) and did try at least one other murder. His last name is Kirkpatrick, from N.O.32, now in insane assylum, poet, artist, actor, probably company, personable, capacity for being right place wrong time, sailing buff, maybe piano player.

Best to you all,
