

W: Kerry. Mystery. He was to have been on ABC's AM tv today after several segments with
men and Jack Andersen yesterday. No appearance, no explanation. I monitored both segments
be certain. ~~But~~ Earlier he had said he was quitting his country. Then he said that
what happened in Chile was JFK's fault, that the efforts to bribe include the accepting
Blende, and that the ultimate dirtyworks were over his expressed objections. He says that
there will be indictments from his conversations with DJ, one for sure Helms, a probable
high corporate executive, and that there may be a conspiracy charge added to perjury. He
was not able to hide his authoritarian belief that us running them is proper. HW 1/19/77
