

9/10/77

Dear Wendell Krueth,

Gary told me I'd be hearing from you. However, he was confused on where I'll be speaking. It is at Milton, Wisc, near Madison, not Stevens Point. That is much farther from Mpls, I think.

I'll be staying in Madison, at the Holiday Inn in the 4200 block of E. Washington. Probably the night of the 29th only. It is an afternoon speech. With luck if I rush off as soon as it is over I can save a day and a night's motel. I'm on a 4:30 plane out of Madison on the 30th. This means I'll have no time then. The college is providing that transportation.

If this is not too long a trip for you I may have some time either the morning of the 30th or the night or late afternoon of the 29th but I cannot now be sure. Friends are trying to arrange an appearance for me in Madison on the 29th. If they succeed then I'll have no time on the 29th. If the Milton college asks for a seminar the morning of the 30th, I'll not be free then.

I wish I could be more specific but it is not possible now. I'll not know about the morning of the 30th until I let the Milton college people know I'm there and arrange for them to pick me up. I do not know when I'll hear about Madison.

If I know in advance I'll try to let you know. All I can now say is that it is chancey. And that I cannot now keep the hours of which Gary may have told you. It was my practise then; it cannot be now.

It is not that I am unwilling.

On the other things you mention I know of nothing factual that resulted from the Garrison fiasco. It was a disaster, the first major undermining of all credibility.

I regard the current House committee as the same thing, another disaster. Both can be called irresponsible without exaggeration.

Much as I would prefer that it be otherwise the fact is that it is this way. I'm sorry about it but was not able to influence them toward reason, fact or responsibility. I did try.

Sincerely,

Harold Weisberg

Dear Mr Weisberg;

In a recent conversation with Gary Schoener I learned that you would be in Stevens Point, Wisconsin for a few days during the late part of this month. Although I don't know what demands will be made of your time while you are there, I would very much like to meet with you **there** if possible. One of my main interests is the New Orleans investigation and its (partial) failure. I certainly hope that the current congressional investigation will give attention to the evidence developed as a result of it. (from what I have heard recently, I have no reason to believe they will).... In any case I will save any other thoughts or questions until Stevens Point, if your schedule will permit it. I suspect that I would have to travel there via Greyhound unless a friend's work schedule permits me to go there by car.... So any advance notice you could give me would be appreciated.

Sincerely

Wendell Krueth
