

Dear Dave,

8/21/85

I gave you some of what the right-wing nut Landkamer sent me. He persists in writing me after I told him I could not engage in such correspondence. He still visualizes a monstrously large international conspiracy including the Skull and Bones society of Yale. There is something amusing in what I got today and I'll come to it but first, not to forget, if he writes you, don't respond at all unless you want him to be sending copies around wholesale. There is a surprising amount of this again in what I got today. It includes a letter from Dave Lifton, who is back in LA at his old address but with a printed letterhead.

Landkamer wrote Bill Buckley as a member of S & B and alleged in the form of questions that V P Bush's S & B oath superceeds that he took as VP "And you conclude your letter, "Buckley responded, with 70 or 80 enclosures implicating Averill Harriman, Mc George Bundy, Winston Lord and Senator John Kerry among others. "What are the goals, purposes, and special interests of (S&B)? Has Vice President Bush taken an oath to carry out the vested special interests of (S&B) before those of the U ited States?"

Buckley then said, "Well, now, that's a pretty tall order. I think the speediest way to handle your question is to confide that the organization to which you refer in fact wrote the Constitution of the United States, and we have had to amend it 26 times, so obviously there is no conflict of interest. We are at the moment pondering the question of trading Houston (where Landkamer lives) to the Soviet Union in exchange for Kamachatka. But please do not divulge what I have told you, as I am sworn to secrecy, and the organization has most awful procedures for dealing with traitors. Remember Mussolini?"

Humorless Landkamer thanked Bucklet for his "informative letter" and says that because the Skull & Bones was not formed until 1832, did Bucklet perhaps mean that the Illuminati wrote the Constitutions? And if so, which signers? He wanders into another reported trade with the Soviet Union, this time giving it our Alaska oil properties. Etc. And has it all in facsimiles!

Including later letters to Buckley, unanswered. Part of the Right is so far to theright that it includes the Right of t e Buckley hue and those like him in its conspiracies. authorities quoted are LaRouche, Spotlight, etc.

His newsletter is The Landkamer Project.

First nut so far out to pester me for a while.

It all seems to center on the Trilateral Commission. LaRouche is big on it.

I made the mistake of trying to talk sense to him to keep him from wasting time. He sent my letter to Lifton, who told him to take my advice. So he asks me the same questions in different form now. I'll not respond and urge you not to if you hear from him.

Best,

JL: Same advice to you and Bud if you hear from him. He sends crazy stuff in volumes and can't be turned off any other way.

Mr. Harold Weisberg

Dear Mr. Weisberg:

Thank you for your letter of August 9, 1985, in response to my previous letter to you of August 3rd. Enclosed is my check to you for \$33.75. Please send me copies of your following books, as advertised on the flier which you sent to me:

- (1) Whitewash II: The FBI - Secret Service Coverup -- \$6.25
- (2) Photographic Whitewash -- Suppressed Kennedy Assassination Pictures - \$9.25
- (3) Whitewash IV: Top Secret JFK Assassination Transcript -- \$6.75
- (4) Post Mortem: JFK Assassination Coverup Smashed -- \$11.50

I've also received a letter from JFK Assassination author/researcher David S. Lifton, which is almost identical in theme to yours. The only essential difference between you and Mr. Lifton is that you are no longer researching the JFK Assassination, whereas Mr. Lifton states that he is "very busy now working on a sequel to Best Evidence". In any event, Mr. Lifton also warns me "regarding the futility of speculation about a specific group (being) responsible for the assassination, when the basis for making connections to individuals does not yet exist."

I confess I'm confused: Both you and Mr. Lifton believe that there was a conspiracy behind the JFK Assassination, and that agencies of the Executive Branch of the U.S. Government were involved in this conspiracy. OK, so isn't the next logical question: Who and/or what group was behind this conspiracy, and why? But when I raise this question, both you and Mr. Lifton take me to task for my "idle theorizing about the JFK assassination". You may be right in what you state regarding the allegations published by the LaRouche people, etc. But surely some group was behind the JFK Assassination. So isn't it logical to start probing into just who and/or what group could have been behind the JFK Assassination, and why?

Very truly yours,

*Richard A. Landkamer*

Mr. Winston Lord  
President  
Council on Foreign Relations, Inc.

New York, New York 10021

Dear Mr. Lord:

In addition to being President of the Council on Foreign Relations, I note that the current (as of March 15, 1985) list of North American Members of The Trilateral Commission lists you as a member of that organization. Also, page 3 of the June 3, 1985, issue of The Spotlight contains an alleged "Final List of Participants" who attended the 33rd annual Bilderberg Conference held at Rye Brook, New York, on May 10, 11, and 12, 1985, and I note that you are listed as having attended this particular Bilderberg Conference. Finally, you are listed in the 1960 Catalogue of the Russell Trust Association as a member of that organization, which is also known as the Skull and Bones Society. Since you are obviously very well connected, I am writing to you for your answers to the following basic elementary questions:

(1) You have been widely quoted in certain circles as having allegedly made the following statement: "The Trilateral Commission doesn't secretly run the world. The Council on Foreign Relations does that." Is this true? Did you ever make this statement, which has been widely alleged that you made?

(2) If you actually did make the above quoted statement, and since you are also a member of the secret Skull and Bones Society, then would a more accurate statement have been to the effect that the Skull and Bones Society secretly runs the world -- or at least desires and/or tries to do so?

(3) I understand that you have been designated as the next U.S. Ambassador to China. Hence, I presume this will require you to resign your position as President of the Council on Foreign Relations. Am I correct? If so, then who will be the next President of the Council on Foreign Relations?

(4) Please send me the current address of the Bilderberg organization, so that I can write directly to them for copies of their literature and reports, etc., and subscribe to whatever publications that they have available to the public -- just as I recently did with The Trilateral Commission. You will note from the enclosed photocopy that on July 31, 1985, Mr. Peter Witte, Information Officer of The Trilateral Commission, wrote to me stating that "Regretfully, we do not have the Bilderberg address, which you requested." I find this truly amazing. If the above cited "Final List of Participants" who attended the May, 1985, Bilderberg Conference is accurate, then in addition to yourself, I note that the following other North American Members of The Trilateral Commission also attended this Bilderberg Conference: (1) David Rockefeller, North American Chairman of The Trilateral Commission, (2) Henry A. Kissinger, member on the Executive Committee of The Trilateral Commission, (3) Zbigniew Brzezinski, another Executive Committee member of The Trilateral Commission, (4) Dwayne O. Andreas, (5) Congressman James R. Jones, and (6) John C. Whitehead. So please send me the address of the Bilderbergers. If you attended their most recent annual Conference, then you must obviously have their address for contacting them.

Thank you. Awaiting your reply, I am,

Very truly yours,

*Richard A. Landkamer*

Regretfully, we do not have the Bilderberg address, which you requested. Dear Mr. Witte:

Thank you for your letter of July 15, 1985, in response to my previous letters to The Trilateral Commission of June 3 and July 6, 1985.

First, enclosed is my check for \$22.00. Please enter my name for a two year subscription to your informative task force reports and the bulletins covering your Commission's annual plenary meetings.

Second, with regard to the Bilderbergers, I think you misunderstood the nature and purpose of my request: I want to write directly to the Bilderbergers, obtain copies of their literature and reports, etc., and subscribe to whatever publications that they have available to the public — just as I am doing with The Trilateral Commission. Obviously in order to do this, I must have their address for writing to them. Hence, I request that you send me the address of the Bilderbergers, so I can write to them as indicated above. Surely with all of the international contacts and connections of The Trilateral Commission, you must have their address in your files somewhere. I suspect that some members of The Trilateral Commission are also members of the Bilderbergers.

One of my contacts informs me that the Freemen Digest went out of business a few years ago. However, I will try writing to them for the issue that you suggest. I don't know if Freemen Digest was for or against the Bilderbergers. There is currently a very anti-Bilderberger publication called The Spotlight, and I have copies of some of their articles on the Bilderbergers. However, again, I still want to write directly to the Bilderbergers for their side of this controversy.

Thank you. Awaiting your reply, I am,

Very truly yours,

Dear Mr. Landkamer:

I received your letter of July 28.

I am very busy now working on a sequel to Best Evidence, so I can't involve myself in a correpondance about various hypotheses.

But briefly, in browsing through the material you sent, I find myself completely in agreement with the sentiments expressed in the May 2, 1984 letter from Human Events editor Winter to you re Skull and Bones.. Also, you would do well to take to heart what Harold Weisberg told you in his letter regarding regarding the futility of speculation about a specific group responsible for the assassination, when the basis for making connections to individuals does not yet exist. Regarding another matter: most knowledgeable assassination researchers believe that Appointment in Dallas was a complete work of fiction; I personally think you are simply wasting your time if you take anything in that book seriously.

Sincerely,

  
David Lifton

Mr. David S. Lifton

Los Angeles, CA 90049

Dear Mr. Lifton:

I obtained your address from Mr. Jim Foley, who told me that you are currently writing a second book on the JFK Assassination and suggested that I write to you. On page 868 of the Dell paperback edition of your first book, Best Evidence, you state:

"I myself think that a sophisticated appraisal of the evidence must force one to the conclusion that there was a plot involving the executive branch of the government to remove Kennedy from office and, by fabricating the evidence..., to make his death appear a historical quirk of fate."

Approximately a year and a half ago, I began trying to research/investigate a 150 year old secret society that calls itself "The Order". (I am not referring to that highly publicized neo-Nazi group from Idaho, which also calls itself "The Order".) I am referring to the Skull and Bones Society (originating from Yale University), which is legally incorporated as the Russell Trust Association (RTA), Inc. If you've read any of Dr. Antony C. Sutton's four published books in his "Order" series to date, you know what I am referring to.

I presume you are familiar with The Spotlight and the revelations that have come out as a result of E. Howard Hunt's unsuccessful (unless he wins on appeal) libel suit against Liberty Lobby and The Spotlight. It now appears that E. Howard Hunt and the CIA were involved in at least some of the operational planning and execution of the JFK Assassination. I never believed that Oswald was the lone assassin of JFK, and I'm not about to believe that a bunch of renegade CIA agents -- acting entirely on their own -- were behind the JFK Assassination. I immediately began re-searching for possible links to Skull and Bones.

Enclosed are photocopies of my "public" file to date on Skull & Bones and related matters, along with some other items that might be of interest to you. I suggest that you begin by reading the enclosed photocopies of my (to date) unanswered letters of May 17 and June 21, 1985, to Mr. William F. Buckley, Jr. Then I suggest that you read my yesterday's letter to Mr. Scott Thompson of Campaigner Publications. After this you can read my correspondence to date with Mr. Harold Weisberg, along with my request to the CIA under the Freedom of Information Act (FOIA). After I learn from Mr. Weisberg how thoroughly he researched Hugh McDonald's book, Appointment in Dallas, I will be in a better position to decide whether I should further pursue my FOIA request to the CIA. Also, you will note that I am attempting to track down Mr. Hugh McDonald, who is evidentially still alive. If you would like to talk to me about any of this, my unlisted home telephone number for nights and weekends is (713) 686-6309. I work during regular weekdays, so don't call then.

I don't know what the contents of your next book will be, but I presume you will start exploring who could have been behind the JFK Assassination. I'm not alleging that Skull & Bones was behind the JFK Assassination, but at least three of its members were involved in the coverup: (1) McGeorge Bundy, Special Assistant for National Security Affairs, (2) the late Henry Luce, then publisher of Life Magazine, and (3) the late Senator John Sherman Cooper, a member of the Warren Commission. Then there are those astounding allegations made against William F. Buckley in that old LaRouche publication, The Buckley Family. In any event, I look forward to hearing from you.

Very truly yours,

*Richard A. Landkamer*

### The Landkamer Project

Richard Landkamer is far and away the most active of all individual (as opposed to organizational) subscribers to the Project. He is an ardent admirer of Antony Sutton's work to expose the Skull and Bones secret society at Yale and is leading a Sutton sub-project named The Landkamer Project to raise funds for additional research into the malodorous Skull and Bones. Project subscribers are strongly advised to contact Landkamer for a xerox copy of his "Public Information File" (\$10.00 postpaid) detailing his various research efforts and correspondence. His address is: Richard Landkamer, 3805 Sherwood Lane #21, Houston, Texas 77092.

### Skull and Bones

Those unfamiliar with Antony Sutton's Skull and Bones research are advised to immediately obtain his series of reports on the subject. They can be ordered from A-albionic Research for \$7.50 each postpaid: Introduction to the Order, How the Order Controls Education, How the Order Creates War and Revolution, and The Secret Cult of the Order. Write to Research Publications, Box 39850, Phoenix, Arizona 85069 if you want to subscribe to Sutton's Phoenix Report.

The Project analysis of the Yale Skull and Bones secret society is currently as follows: Skull and Bones or "Bones" or "The Order" is by all accounts the most prestigious senior society at Yale. With numerous members such as Averell Harriman and Vice-President Bush, Bonesmen have been at the forefront of all the critical policies undertaken in the United States for over a Century! Sutton is particularly concerned with Bonesmen being in the forefront of the notorious Establishment efforts to build-up foreign totalitarianism, particularly in Russia, Germany, and China. Please consult Sutton for the unbelievably far-flung power held by Bonesmen. Sutton's Secret Cult of the Order is particularly interesting regarding the Masonic ritual adopted by Bones and its German-Illuminati origins. Averell Harriman of Wall Street's Brown Brothers Harriman International Banking firm is the acknowledged "Patriarch" of Skull and Bones.

To understand Skull and Bones it is vital to understand that Brown Brothers Harriman finances this secret society as an investment in the future personnel of and, therefore, control of, the United States Government and other elite institutions that traditionally draw key personnel from Yale. (Someone needs to research who controls the other Yale societies and societies such as the Porcelain Club at Harvard.) Bones has been marvelously successful as Sutton shows.

Next, the Anglophile history of the Browns and the Harrimans must be understood. The Browns were perhaps the greatest Anglo-American Merchant Bankers of all time! Originally Belfast linen dealers, the Browns moved to Baltimore where they became the leading merchants of their time and quickly graduated to Merchant Banking and issued acceptances for other merchants. They were deeply involved in The First and Second Banks of the United States. They sent a son to Liverpool to start an English branch and later set-up in New York as well. During the financial panic of 1836 the Bank of England intervened to save Brown Shipley (English Branch) from bankruptcy by advancing almost \$2,000,000 pounds, an unheard of amount for the time. While Merchant Banks fell by the 100's Brown emerged stronger than ever from the ruins. William Brown relocated to London and was knighted and entered Parliament in 1847 and named "High Sheriff" in 1863. Brown Shipley was made a member of the "Holy of Holies" of International Finance in 1916, the Acceptance House Committee of the Bank of England. The original Harriman was a railroad stock manipulator for Kuhn Loeb, the Warburg bank and another asset of the "Crown". Thus, the Browns and Harrimans, and of course their Skull and Bones, should be viewed as instruments for the "dialectical" balance of power manipulations of the "Crown."

It should be noted that Sutton does not interpret Skull and Bones as an instrument of the "Crown", but seems drawn to the spurious, and suspiciously popular right-think view of the "Illuminati" connection as the causal link, totally ignoring the theory that Masonic-Illuminism was a British strategy to overthrow the French Monarchy, not a prime cause! Nesta Webster introduced the idea that Continental Masonry is fundamentally different from British Masonry. The fact is that Masonry is loyal to the Crown. In England, therefore, Masonry is patriotic. In France it was subversive!

In this book Quigley outlines his basic philosophy and more specifically, his neo-Spenglerian philosophy of history. An understanding of Quigley's basic philosophy is essential in interpreting Quigley's revelations regarding International Finance, the Round Table Groups, and British Imperialism. Efforts to interpret Quigley without such an understanding have led to pathetic misunderstandings as evidenced in Cleon Skousen's The Naked Capitalist. It is now clear that the Round Table was not an essentially "Socialist" conspiracy, but a "One World" imperialist one. They worked with socialist because socialists were more amenable to "One World" than free-enterprisers.

The Foreword to this edition, written by Quigley's close friend Harry J. Hogan, provides important information vital to understanding Quigley's love-hate relationship with Neo-British Imperialism. Quigley is described as a moderate Catholic who "left the Church in the formal sense, but spiritually and intellectually never left it." Thus, Quigley (as does the Vatican), admired the "One World" ideals of the Rhodes/Milner Round Table, but hated the traditional, immoral divide and conquer tactics of the "Crown", which he called "the Cecil bloc", and its financiers. Too often we forget that the Vatican has always aspired to "Catholic" (universal) world rule over nation-states of limited sovereignty--not very different from the Round Table's ideal of "World Federation." However, as we have shown elsewhere, the Round Table was merely a "moral" front for the always diabolical "Crown". It must also be remembered that the Vatican is for Feudalism, a moderate form of socialism sometimes called Fascism, and has always been hostile to Capitalism in both its (British) monopoly form and its "free-enterprise" variety.

This book should be read by everyone interested in history regardless of ideology. It presents Quigley's controversial "organic" view of civilization and his view that a "healthy", expanding civilization must inherently be the exploitation of the many by an elite.

New Atlantis by Francis Bacon.  
\$25.00

Sutton's attraction to right-wing "secret society" mythology dispensed by "Crown" agents such as Disraeli and Nesta (Bevan-Barclays) Webster is truly unfortunate. It is Sutton who first made me aware of the operation of the Hegelian dialectic in conspiratorial strategy, but he refuses to take it seriously.

### Landkamer's Buckley File

Richard Landkamer, as a Supporting Subscriber, has asked that I print his Buckley correspondence file and, in particular, his "smoking gun" letter to Buckley regarding the Kennedy Assassination. Project subscribers will want to keep the following in mind when considering the Kennedy Assassination. Kennedy was Catholic. Buckley is Catholic. Both also had Anglophile associations, particularly Kennedy's father, Joseph. Is double and triple agency involved? Kennedy "lost" Cuba to the Reds. Cuba was previously controlled at least in part by the Mob. Who controls the Mob? Is the Sicilian Mafia the Pope's Secret Police? Is the Jewish Mafia (Meyer Lansky) an arm of the "Crown". Did the Italian and Jewish Mobs work together in Cuba? Yes. Did the Anglophile Eastern Establishment initially favor Castro? Yes.....Well, I haven't solved it yet either!!!

Mr. Landkamer's highest priority is looking for evidence that might connect Skull and Bones to the Kennedy Assassination. He urges our reader to contact him if they have relevant leads or information.

Dear Mr. Buckley:

Enclosed are photocopies of my "public" correspondence file on "The Order", as exposed by Dr. Antony C. Sutton. By "The Order" I mean specifically the Skull & Bones Society, which is legally incorporated as the Russell Trust Association (RTA), Inc. In the enclosed photocopies, you will note that I have unsuccessfully attempted to communicate with your following fellow members of Skull & Bones: (1) Vice President George Bush, (2) W. Averell Harriman, (3) RTA Secretary Coit R. Liles, (4) CFR President Winston Lord, and (5) J. Richardson Dilworth. None of these people have been willing to respond to any of my communications regarding their membership and participation in Skull & Bones. Mr. Coit R. Liles admitted that he is Secretary of the RTA, but refused to furnish me with any information about the RTA.

Why am I writing you this letter? Because I have discovered something very unique about you: Unlike all of the other above members of Skull & Bones, you are only one of three current members of Skull & Bones, who openly disclose their Skull & Bones membership in their official biographies, which are contained in WHO'S WHO IN AMERICAN POLITICS, Cattell, 9th Edition, 1983-84. This certainly sets you apart from Vice President Bush, who insists that all information regarding his membership in Skull & Bones can only be obtained by contacting Yale University. To date, Vice President Bush has adamantly refused to affirm or deny his membership in Skull & Bones. Unlike yourself, Vice President Bush evidently takes his oath of secrecy to Skull & Bones very seriously. In fact, I really want to know if Mr. Bush's oath of secrecy to Skull & Bones supersedes his oath of office as U.S. Vice President?

You will note from the enclosed photocopy of the February, 1985, issue of Dr. Sutton's monthly Phoenix Letter that I am attempting to conduct an independent investigation into "The Order" and related matters. Unfortunately, my investigation has been greatly hampered because to date I have been unable to find any member of Skull & Bones who is willing to correspond with me, and/or to act as a spokesman for Skull & Bones by presenting the Skull & Bones side to Dr. Sutton's charges. In other words, I have found Skull & Bones so secret that it has been impossible for me to obtain the "other side" to Dr. Sutton's charges. However, since you have publicly disclosed your membership in Skull & Bones, I am hoping that you will act as their spokesman in communicating with me. Hence, my questions are as follows:

(1) Can you answer any of the questions and requests for information, etc., which are propounded in the enclosed photocopies of my letters to your fellow members of Skull & Bones? If so, please do so, as I want answers to all my questions.

(2) Please send me the current Catalogue membership list of the RTA, which I understand is in two volumes. The one at Yale is now 25 years old (i.e., 1960).

(3) Who are the current and past officers and directors of the Russell Trust Association, Inc.? Both the 1979 Catalogue of the Kingsley Trust Association and the 1982 Catalogue of the Phelps Association contain all of this information for those organizations. However, to my knowledge, no Catalogue of the Russell Trust Association has ever contained any of this information, which makes Skull & Bones a truly secret society. Also, what are the goals, purposes, objectives, and vested special interests of Skull & Bones? Has Vice President Bush taken an oath to carry out the vested special interests of Skull & Bones before those of the United States?

Very truly yours,

*Richard A. Landkamer*

**Heir of Adventure**  
The Story of Brown, Shipley Co.  
Merchant Bankers  
\$17.00

Although this book is an "authorized" biography of the Merchant Bank behind Skull and Bones, so little is known about Brown Brothers, the key bank in Anglo-American trade and relations for a Century and one half, even in conspiracy research circles, it is well worth reading.

For those inclined to downplay the "Crown" connection of Brown Brothers and Skull and Bones, the following quote is vital: "...on January 1, 1918, formal notice was given of the ending of the partnership. Brown Shipley and Co. (Britain) withdrew from Brown Brothers and Co. and the latter withdrew from Brown Shipley. Except for this dissolution of partnership the two firms continued without any change in name or constitution, and each continued to act-- though not exclusively--as agents of the other. Almost a half century has passed since that decision had to be taken, yet the ties that bound the two branches, though technically severed, have never been really broken."

Another key fact about Brown Brothers worth pondering is that Montague Norman, the grandson of one of the partners (Sir Mark Collet), rose to his awesome position of power in the Bank of England through Brown Brothers.

### Ultimate Origin of the Conspiracy to Rule the World

An organ of the conspiracy itself, the Warburg Institute, has apparently released, in a sanitized, but accurate version, the truth about the founding of the Conspiracy! The book, The Occult Philosophy in the Elizabethan Age by Frances Yates, should have an effect on the conspiracy research movement vastly greater than that of Quigley's Tragedy and Hope! Unfortunately, Dame Frances Yates died in 1981 and her books are out-of-print and available by difficult rare search only. Her credits include: Reader in the History of the Renaissance at the University of London, a Fellow of the British Academy, a Fellow of the Royal Society of Literature, a Fellow of the Warburg Institute, and a Fellow of Lady Margaret Hall, Oxford.

Dear Mr. Landkamer:

You write (March 2, 1985) that I am one of three current members of S&B who "openly disclose their [S&B] membership in their official biographies which are contained in Who's Who," and that this "sets" me "apart from Vice President Bush, who insists that all information regarding his membership in [S&B] can only be obtained by contacting Yale University." You ask, "I really want to know if Mr. Bush's oath of secrecy to [S&B] supersedes his oath of office as U. S. Vice President." And you conclude your letter, with its seventy or eighty enclosures implicating Averell Harriman, McGeorge Bundy, Winston Lord, and Senator John Kerry among others, "What are the goals, purposes, objectives, and vested special interests of [S&B]? Has Vice President Bush taken an oath to carry out the vested special interests of [S&B] before those of the United States?"

Well now, that is a pretty tall order. I think the speediest way to handle your questions is to confide that the organization to which you refer in fact wrote the Constitution of the United States, and we have had to amend it 26 times, so obviously there is no conflict of interest. We are at this moment pondering the question whether to trade Houston to the Soviet Union in exchange for Kamchatka. But please do not divulge what I have told you, as I am sworn to secrecy, and the organization has most awful procedures for dealing with traitors. Remember Mussolini?

Yours cordially,

  
Wm. F. Buckley Jr.

Dear Mr. Buckley:

Thank you for your informative letter of March 21, 1985, in response to my previous letter to you of March 2, 1985. My comments and questions are as follows:

(1) I note your statement "that the organization to which you refer in fact wrote the Constitution of the United States." Actually, I was confining my questions to Skull and Bones, rather than to the Illuminati to which I presume you are referring. I say this because the U.S. Constitution was written in approximately

Yates identifies John Dee, Queen Elizabeth I's, magician/advisor/intelligence agent as the man who brought the Jewish "Cabala" to the British ruling class, setting the stage for alliance with the Jews to defeat the Catholic Church and establish the British Empire. She also shows that he invented the "British Israel/Identity" cult that has done so much to promote the Oligarchy's program of world conquest.

The conclusions which flow easily from the book are breathtaking for the knowledgeable conspiracy researcher, even though Yates is careful not to state them too explicitly. Believe it or not, this book holds the key to the entire conspiracy, a key fully in accord with the Project overview to date!

Those who follow Lyndon LaRouche's theories, particularly those who read his Secrets Known Only to Inner Elites, will be interested to know that this book exposes his formulations as totally incorrect. Whereas LaRouche claims the philosophy of the Oligarchy is Aristotelianism, Yates shows clearly that their philosophy is a form of neo-Platonism combined with Christianized Jewish cabalism. What Yates doesn't do is to explain what the conspiracy's "cabalistic magic" really is. In my view, it is a profound system of psychological knowledge which leads to deep understanding of, and thus power over, the minds of oneself and others, including but not limited to mind reading based on subtle signals and mass hypnosis.

Yates' book also turns the thesis of Nesta Webster on its head. Cabalism, far from being a "continental" conspiracy far removed from "British Imperialism", is shown to be the very basis of Britain's society since the reign of Queen Elizabeth I! It becomes more and more certain that Nesta (Bevan/Barclays) was a knowing or unknowing vehicle for calculated disinformation.

Webster, as did Disraeli before her, feigned a British concern for The Church and traditional society while Britain's covert, cabalistic apparatus spread subversion!

1787, whereas Skull and Bones was not formed until 1832-33. Thus it would have been impossible for Skull and Bones to have written the original U.S. Constitution. However, Adam Weishaupt formed the Illuminati in 1776, and so it certainly would have been possible for members of the Illuminati to have participated in writing the U.S. Constitution. Am I correct in assuming that you are referring to the Illuminati? If so, who were all the members of the Illuminati who wrote the U.S. Constitution? Also, am I to interpret your letter as confirmation that Dr. Sutton is correct in alleging that Skull and Bones originated from Adam Weishaupt's Illuminati? If not, then please explain your position in full and complete detail.

(2) I note your statement that Skull and Bones is "at this moment pondering the question whether to trade Houston to the Soviet Union in exchange for Kamchatka." I find this most encouraging, provided that I am permitted to relocate before this trade is completed. In any event, the key word is trade. I've read several recent articles to the effect that key Alaskan oil lease properties and islands are in the process of being given to the Soviet Union. Are these articles in error? Is anything being traded for these Alaskan oil properties? If so, please enlighten me.

(3) Again, please send me the complete current two volume Catalogue of the Russell Trust Association (RTA), Inc. My 1960 RTA Catalogue from Yale is very outdated.

Thank you,

Very truly yours,

Dear Mr. Buckley:

As of this date, I have not received any reply regarding my previous letter to you of March 26, 1985, a photocopy of which I enclose for your instant reference.

I've been doing some research into your background, and I recently came across an old out of print (I think) pamphlet published several years ago by Lyndon H. LaRouche's organization. This pamphlet is entitled The Buckley Family -- Wall Street Fabians in the Conservative Movement -- and was "Reprinted from Executive Intelligence Review" with an undated copyright by Campaigner Publications. The author of this "12,000-word expose of the Buckley family's operation" was "security specialist Scott Thompson". Executive Intelligence Review and Campaigner Publications are, of course, part of Lyndon H. LaRouche's network of organizations. I doubt if any of Lyndon LaRouche's organizations still sell this amazing pamphlet, but copies have recently been advertised at \$5.00 each from A-Albionic Consulting and Research, P.O. Box 20273, Ferndale, Michigan 48220.

Unfortunately, anything published by Lyndon LaRouche can hardly be regarded as a reliable source of information. Indeed, I scarcely know what to believe of what I read in New Solidarity these days. In any event, the following startling allegations are quoted from page 11 of this pamphlet:

"As Kennedy's popularity reached its nadir following the 1962 Cuban Missile Crisis, involvement of the U.S. in a 'limited conflict' in Vietnam, and a 'left' feint with the nuclear test ban treaty, the Buckleys' 'dirty tricks' crew was called out to rig a dummy assassination of the President with full knowledge of Attorney General Robert Kennedy and Wall Street insiders on the National Security Council. (4) Apart from the sympathy this operation was intended to win for the President, multiple U.S. intelligence sources have confirmed that the dummy hit was intended to provide cover for a new U.S. invasion of Cuba and a showdown with the Soviets at precisely the moment they were being lulled by Test Ban Treaty negotiations. Minutemen, Klan and Nazi units led by Buckleyite agents were to be unleashed for a wave of domestic assassinations which, coupled with IPS 'leftist' terrorist countermeasures, were to provide Kennedy an excuse to impose a monetarist dictatorship.

"It remains unclear to this day who intervened into the dummy assassination set-up and turned it into the real thing."

Even more astounding allegations are contained in footnote (4) on page 13: "4) Field coordination for the dummy assassination appears to have been carried out by two of William Buckley's top operatives, E. Howard Hunt, and George DeMohrenschildt. Hunt is a close personal friend of the Buckley family, while DeMohrenschildt, who was recently murdered before he could testify on his role in the assassination, was a product of those Rothschild-Rockefeller White Rus-

Webster may have been selected as an unknowing, enthusiastic dupe in this task. (Her brother was a specialist in Jewish studies at Oxford.) Disraeli, as an intimate of Queen Victoria and the Rothschilds, was certainly not innocent. Also, for those in the know, he let the cat out of the bag with his constant ballyhooing of the mysterious power of Secret Societies on the continent.

Another product of the Warburg Institute, Robert's Mythology of Secret Societies, shows that secret societies are not what they seem to be to either their partisans or their enemies, but are, in fact, "pre-mass media" propaganda tools. The values and themes of secret societies are publicized by the exposure given primarily by the enemies of the secret societies. Thus, Disraeli's constant invocation of the "Secret Society Spectre" in fact promoted the revolutionary philosophy he pretended to oppose by exaggerating its power!

Yates' book tends to confirm the LaRouchian thesis that the great trading and banking city of Venice, insular because of the great swamps behind it, was the progenitor of Britain as the world center of trade, banking, influence, and espionage. Queen Elizabeth I's father, Henry VIII, sought the advice of Venetian Jews and the "Christian" cabalist theologian Georgi for advice on how to rationalize divorce to the Pope. This may have been the initial entry into Britain of the Cabalist virus that was to grow so powerful in Britain. It should be remembered that the Warburg family was originally from Venice, operating under the name del Banco, as the greatest bankers in Venice when Venice was supreme in world finance! John Dee was an avid reader of Georgi.

### Need Help With British History?

Many readers have written that it would be easier to follow the theories propounded in the Project if they were better students of British history. I have found the ideal tool for that very purpose: Outlines of English History from 55 to 1897.

The outline is widely used in England by students preparing for exams. It is an excellent guide to all the major events of British history, a ready reference guide. Xerox--218 pages \$48.00.

# THE ANGLO-AMERICAN ESTABLISHMENT

sian networks of which the Buckleys have become leaders. DeMohrenschildt's father headed Standard Oil's subsidiary in pre-Revolutionary Russia. He himself worked for Nelson Rockefeller, then Coordinator of Inter-American Affairs, during World War II. Later, he joined the Buckleys' Pantepec oil firm in Venezuela which was integrated into Standard Oil's massive private intelligence operations in the Caribbean. When he left Pantepec, he developed several joint ventures with Schlumberger Corp., which was represented by the Buckleys' law firm, Coudert Brothers, and which also had a record of dirty tricks involvement with the Bay of Pigs and other operations. It was DeMohrenschildt who introduced Lee Harvey Oswald to Ruth Paine, the immediate controller of both Marina and Lee Harvey Oswald at the time of the assassination, as soon as he returned from the Soviet Union. It was also DeMohrenschildt who introduced Oswald to Hunt lieutenant Guy Bannister, whose New Orleans 'Minutemen-Cuban exile' network handled Oswald's further laundering as a 'leftist' through the Fair Play for Cuba Committee, fights with well-known 'Gusanos,' etc. Other Buckleyite agents involved in the Kennedy assassination include Ken Duggan, who was murdered in prison after he broke with Buckley and sought to expose his hard core 'right-wing' agents. Duggan helped set up numerous back-up teams for the Buckleys that could be used under Minutemen or 'leftist' cover."

With regard to your further alleged involvement with Nixon Watergate burglar E. Howard Hunt, the following allegations are quoted from page 5 of the above cited pamphlet:

"In 1950-52 at least three of the Buckley children -- William F., F. Reid, and Priscilla -- followed directly in their father's tracks to receive training for the future direction of their Rockefeller satrapy as employees of the Central Intelligence Agency (CIA). Referring to William F. Buckley's recruitment, E. Howard Hunt -- one of the top Rockefeller covert action men who was involved in setting up a dummy assassination against President John F. Kennedy, and, later, was to head the Watergate dirty tricks operatives who sabotaged the Nixon Administration's break with Wall Street -- recalled: 'When I got the CIA assignment to set up a CIA station in Mexico City (actually, the CIA Latin American Division HQ--ed.), Bill was the first person I thought to bring in. He accepted immediately.' In fact, the decision was not so informal."

At the time the above cited pamphlet was published, undoubtedly most people -- myself included -- would have considered the above allegations to have been beyond the realm of any reasonable possibility/credibility. After all, at that time there was no corroborating evidence that E. Howard Hunt had any involvement with the JFK Assassination. However, the recent shocking revelations that have come out as a result of E. Howard Hunt's unsuccessful libel suit against Liberty Lobby and The Spotlight tend to put this matter in a very different perspective. From what I've been reading in The Spotlight these past several weeks, I get the distinct impression that there is now hard evidence to implicate both E. Howard Hunt and the CIA in the operational planning and execution of the JFK Assassination. I never believed that Lee Harvey Oswald was the lone assassin of President John F. Kennedy, and I'm not about to believe that a bunch of renegade CIA agents acting entirely on their own decided to assassinate the President of the United States.

Mr. Buckley, are the above quoted allegations true? Were you in any way involved with E. Howard Hunt in plotting the assassination of President John F. Kennedy? Can you refute any of the above charges/allegations? These are very serious charges, and if they are false, I submit that it is imperative that you refute them immediately. Otherwise, some "conspiracy buffs" might wonder if the JFK Assassination was actually a Skull and Bones operation -- for motives which are still unclear at least to me. Your fellow members of Skull and Bones -- McGeorge Bundy, the late Henry Luce, and the late Senator John Sherman Cooper (a member of the Warren Commission) -- were actively involved in covering up all evidence of any conspiracy in the JFK Assassination. But this is the first time I've read allegations to the effect that a prominent member of Skull and Bones was allegedly involved in plotting the assassination of President John F. Kennedy. So awaiting your reply to this very serious and urgent matter, I am,

Very truly yours,

*Richard A. Landkamen*

**A Note on This Issue:** This issue was delayed because of the late arrival of the Frances Yates book. I hope you agree that the wait was justified.

**Next Issue:** We plan to devote the next issue to a re-write of the basic hypotheses of the Project based on the research to date. You won't want to miss this one!!

On rare occasions a book is published which must forever alter the way in which we view the world around us. Within a short while, it becomes difficult to understand how we could have functioned without the knowledge gained from it. *The Anglo-American Establishment* is such a book. In it Professor Carroll Quigley presents crucial "keys" without which 20th century political, economic, and military events can never be fully understood. The reader will see that this applies to events past--present--and future.

While the notion of conspiratorial influence on world events has gained credence with both extremities of the American political spectrum, and to a degree with the general public, the more academically-oriented person has tended to downplay such influence, largely because of the lack of scholarship in the presentation and analysis of the facts by those supporting the conspiracy theories. In addition, many such supporters have made themselves easy to ignore and, in fact, have themselves always assumed that they would be ignored. Professor Quigley's work does not suffer from these defects. The evidence he presents here appears irrefutable; the analysis--brilliant. In his own words:

"It is not easy for an outsider to write the history of a secret group of this kind, but... it should be done, for this group is, as I shall show, one of the most important historical facts of the twentieth century... I suppose in the long view my attitude would not be far different from that of the (society)... but agreeing with the group on goals, I cannot agree with them on methods... In this group were persons who must command the admiration and affection of all who know of them. On the other hand, in this group were persons whose lives have been a disaster to our way of life. Unfortunately... the influence of the latter kind has been stronger... I have been told that the story I relate here would be better left untold... the last thing I should wish is that anything I write could be used by the anglophobes... but I feel the truth... once told... can be of injury to no men of good will."

Carroll Quigley (1910-1977) was a highly respected professor at the School of Foreign Service at Georgetown University. He was an instructor at Princeton and Harvard; a consultant to the U.S. Department of Defense, the House Committee on Astronautics and Space Exploration; and the U.S. Navy.

## Continued Review Empire of the City

By E. C. Knuth

Correction to the review of Chapter II (last issue): In the American Civil War Britain initially seemed to side with the Papal inspired Holy Alliance (including Maximilian's Mexico) and the South against the North and Russia, but failed to do anything significant to prevent the South's or Maximilian's defeat. The idea that the puny Russian fleet actually deterred British intervention is absurd! We must also question the idea that Britain was thwarted by Prussia's victory over Napoleon III's France--also part of the Holy Alliance against democracy--that had supported Maximilian in Mexico.

### Chapter III. The Eastern Question

As Carrol Quigley also notes, the decaying Turkish, Ottoman Empire (the "sick man" of Europe) was a source of conflict throughout the 19th Century and has a lot to do with the current chaos in the Middle East. Knuth notes correctly that in the early 19th Century Britain united with France and Russia to protect Christians in the then Turk-controlled Balkans and Greece from the alleged atrocities of the Moslems. Later, Britain forsook the Christians under the heel of the Turk in order to use Turkey in her balance of power manipulations against Russia. Thus, the Crimean War of 1853-56 was launched. Sardinia's House of Savoy also allied itself with Britain, France, and Turkey in the Crimean War. As part of the deal Britain put King Victor Emanuel of Savoy on the throne of a newly created "Italy" in 1861.

From here on, Knuth fails to take adequate note of the "Crown's" ancient enmity for the Vatican and the Royal Family's origins as German Princelings. Because of the conservative pretensions of the Tory Oligarchy, Knuth apparently failed to see that Britain's inner elite (including Jewish Financiers) wanted to see the ultimate failure of the Holy Alliance and loss of the Papal States to the newly formed Italy--a general victory of "liberalism" over the "old order". This was the result of the defeat of the South and Maximilian by the North in the Civil War, the defeat of Catholic France by Protestant Prussia in the Franco Prussian War, and the defeat of the Pope by Victor Emanuel in 1870. Knuth notes correctly, however, with all this going on that Russia almost slipped out of Britain's balance of power stalemate, invading Afghanistan, Turkestan, and Turkey. Only the British fleet prevented Russia from seizing control of the strategic Bosphorus and Dardanelles. With Turkey of no further use in Britain's balance of power against Russia, Britain bought Turkey's vassal government of Egypt and when "the natives" objected in armed uprisings demolished the Egyptian fleet and sent the famous "Gordon" to subdue the revolt. As is well known, Gordon was killed by the Mahdi and the Mahdi was not defeated until Lord Kitchener was sent to Egypt in 1898.

Although things were not yet "settled" for the British, and never will be for an "insular" state playing the dynamic balance of power game, this episode should not be characterized as "Britain on the run" as Knuth attempted to do. With the Catholic oriented Holy Alliance in shambles Britain had won a great victory and was in a better position to be the conductor of the "Concert of Europe".

### Chapter IV. The Concert of Europe

Knuth's probably Catholic prejudices begin to show in this chapter. The "Concert of Europe" is presented as an anti-British force for peace and justice. No mention is made of the notorious Treaty of Verona through which the Pope and the major Catholic nations of Austria, Spain, and France, with Britain's apparently fake initial compliance, had agreed to stamp-out democracy and individuals rights once and for all and to restore the "Divine Rights" of Kings!

After the Russian victories over the Turk, Knuth pictures Britain as piteously applying to the "Concert of Europe" to limit Russia's advance. But Britain was always the covert conductor of the "Concert of Europe" and it got its way that time also! By threatening to arm Austria against Russia and calling out her own reserves, Britain black-mailed the Congress of Berlin into depriving Russia of territorial gain. Britain seized Cyprus as a base against further Russian advance and Austria was given conquered Turkish provinces. Knuth then incorrectly states that the British balance of power was in abeyance and the Concert of Europe ruled independent of Britain, in peace for 43 years. What nonsense! Britain's balance of power was effected and Britain again secured her role as the "Conductor" of the "Concert" of Europe.

The correct point that Knuth could have made, but didn't is that an "insular" naval power like Britain is free to soak other nation in blood in order to maintain its own balance of power scheme. On the other hand, vulnerable "Continental" powers are more likely to come to peaceful arrangements regarding spheres of influence, etc.

## Tragedy & Hope

By Carroll Quigley  
\$25.00

TRAGEDY AND HOPE shows the years 1895-1950 as a period of transition from the world dominated by Europe in the nineteenth century to the world of three blocs in the twentieth century. With clarity, perspective, and cumulative impact, Professor Quigley examines the nature of that transition through two world wars and a worldwide economic depression. As an interpretative historian, he tries to show each event in the full complexity of its historical context. The result is a unique work, notable in several ways. It gives a picture of the world in terms of the influence of different cultures and outlooks upon each other; it shows, more completely than in any similar work, the influence of science and technology on human life; and it explains, with unprecedented clarity, how the intricate financial and commercial patterns of the West prior to 1914 influenced the development of today's world.
