

Dear Dave,

10/11/76

~~xxxxxxx~~ about ~~xxx~~ a month ago Jim suggested that the time had come to expose Lane's disinformational operations. I was not possible for me to draft an article until one day last week, when I'd finished the preparations for what we used in court Friday.

(Sorry you have picked the days we've been there to phone.)

What I've done is about 20 typewritten pages, too long, I'm sure.

It is also too hasty. There is always the problem of confabulation, possibly magnified in this case because I wrote the whole thing in less than a day.

Yesterday I asked Jim who we might ask to edit and cut. You are one of those he suggested.

Lil will retype it as soon as she can. I'll send you a carbon with this when she has it completed.

Appreciate it if you have time to do anything.

And if you have any ideas for its use where the Congress can see it.

Airline schedules sometimes change. If and when you have time I'd appreciate knowing the best flights to your airport. I believe I have to switch in Chicago. I'd like to avoid the hedgehoppers of the commutation flights. There used to be some 727s that made only one stop, at Green Bay. With the fog I experienced last time if there is a daylight flight I'd prefer that. I think I had in mind going there on a Sunday, the 7th. Maybe not. I've forgotten what is most convenient for you.

If the first thing is Monday night and there is a daytime flight that would perhaps be less of a burden on all of you.

You've probably heard of our local flood. We ~~xxx~~ were above the serious damage.

Jim's petition cert for Ray is a fine job. If he does not think to send you a copy remind him. You'll want it.

We are applying successful pressure in the King case. They are still trying to stall even more. They came up with a plan they represented as of compliance in 44 estimated weeks. We then would not have partial compliance and their offer covered only a fraction of the relevant files. I've asked for full compliance by 12/~~xx~~ 15 and that it be sworn to. On Friday the judge gave them until day after tomorrow to come up with something real. She is going to sign an Order, whether or not for all we've demanded. We are also making other moves of which we'll know before we are there. Best to you all,
