Dear Mark,

Thanks for the Freep special and the Time-Picayune piece on the Flynt shooting. Little has appeared on it around here. If you see any stories they'll be helpful, especially Lane et al blaming it on the feds because of Flynt's derring do, investigative-wise, that is. Utterly ridiculous!

I was glad to notice that John Volz became the new U.S. Attorney in New Orleans. He seemed like a pretty decent person the few times I saw him

Finally I did obtain a copy of the Freep Special so I'll give this one to Dave Wrono. I'll see him next week. If he does not have it he needs it. If he does have a copy then he'll have one for student use.

From what I've heard two other Freep specials are do, one perhaps now overdue.

Another on JFK and one on MLK.

There is so much Lane can rip off and as you also note he has done it in the first, so I guess it will be interesting to see how far he goes in this thievery and how much he improves upon fact and reality.

Hope school is going well.

Harold
