Dear Mr. Latta,

In response to your request, this is my permission for you to use the cited pages of Post Mortem and the unidentified flyer for one of my earlier books.

Sincerely,

Harold Weisberg

Mr Harold Weisberg,

Dear Friend: The Republican nomination of George Bush for Vice President re-opens a can of worms related to the Kennedy assassination which I am determined to exploit as much as possible for a Reagan defeat in the coming election. I am not at all a great admirer of President Carter, but only he is much better than the alternative.

With an ex-Director of the CIA about to step into the Vice President's role, paving the way for further CIA encroachments into our government, it appears the extent of CIA domination of the Warren Commission deserves another airing, which I propose to give in my own limited area.

I am writing to ask your permission for reproduction of pages 74-75; 262; and 310 of POST MORTEM, with full credit to source plus reproduction of your advertising sheet you sent me a few years back. My reproductions will be by Xerox copy limited to not more than 100 copies strictly for local political distribution, plus copy of your advertising sheet mentioned. There will be no re-writing or editing of the copies, just reproduction of the printed page with credit to source.

These pages will add enormously to the effect with our newer generation with only a vague notion of what happened, and who generally accept the "official" fairy tales.

Full copy of my local distribution will be sent you when first copies are mailed. Hopefully it will also create new interest in the books you published.

Sincerely,
John H Latta
