Dear Paul,

If you know anyone in the media who might be interested, I think that if I were to be asked what the defense says is wrong with what the prosecution has offered as incriminating of Simpson I could tick off a parallel in the political assassinations, especially of JFK and MLK.

If you know anyone who might have such an interest, I ought not be phoned after 2 p.m. your time. In coping with several medical problems I keep convoluted hours. At five our time I begin preparing to retire. I'm up and unable to return to sleep any time beginning midnight. I wrote most of the book on which I enclose a catalogue page before most people around here are up and about.

Among other things this book does the beginning of what I'm doing with nonfiction what Oliver Stone did with fiction he described as nonfiction.

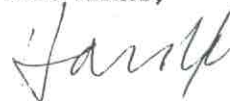

With that rare genius some publishers have, they omitted the subtitle from the cover. It is "The Government Conspiracy in the JFK Assassination."

The sequel is being retyped. It is Waketh the Watchman: Our Strangelovian Military and the JFK Assassination.

From my experiences with these publishers I do not plan to offer it to them.

This is to say that at my age and in the state of my health it may only be a record for our history.

Best wishes,

Harold Weisberg
