Jim, when you told me over the phone today of the receipt of John's letter because he had not addressed it properly and what you take some of what he said, I did not feel it was wise to add to it. However, I do now. John told me quite forthrightly that he can tell me what James can. He also said he won't, that it is James' decision to make. I am sure I played that atpe to you or told you...Don't know how common the name De Shazo is in B'ham. Albert is in the Group Research NSRP stuff and John was in Aeromarine...If and when you or Bob can make copies I'd like to seem the dept. Disinformation stuff the Post didn't mention that appeared over the weekend, like Newsweek's McCord story, which got some radio attention. They have to attack, as best they can. 8 p.m. news tonight says UPI says he gave the grand jury records showing the monthly husmoney payments. Isn't that another unindictable crime? I wonder if this is something on which a willing judge can grab a handle? Isn't it interfering with a witness in his court? To quote the sage Danaher, REQUIESCAT IN PACE, Dorothy, good ol' paymistress that you were. His desire was also "forefend". Hope Sirica doesn't feel that way now. HW 4/10/73
