Dear Jim,

You get yourself involved in all the stuff that at best is not hurtful and when you have a chance to do something that can be worthwhile you flub. And undoubtedly give yourself all sorts of excuses for it. And if you are not aware of the good you could have done for what you profess to believe in by holding the press conference you promised to hold for NEVER AGAIN! you are even more hopeless ~~than~~ than all the childish stuff you stay involved with indicates.

This is about the time you leave for Singapore and all I have from you in all this time and after your giving me your word is silence.

I ~~WISH TO GO TO SINGAPORE~~ ~~WISH~~ AS I am, and weary all the time, instead of doing other things of interest to me, on your word. You are not the world's only busy person. What I now do is at the cost of something I'll not be able to do. And I'm not involved in all the silly stuff you are, what we'll be lucky ^{about} if it is not hurtful.

You are so deeply into that nonsensical stuff you are blind to what can do some good. You seem to have no interest in what can from your clear record, too.

If you are not going to hold that press conference you agreed to so long ago please send me those book and stop keeping me immobilized from trying to do anything because, while there may be little I can now do from here, I could not nothing that would preempt what you said you would do.

Especially with your own health problems is it not past time for you to ask yourself questions and try to isolate what is and is not worthwhile? To try and come to some understanding of what is real and what is not and cannot be, instead of trying to live some silly Sherlockery?

I ^{note} ~~note~~ your failure to respond to what I took a little time to inform you about. I suppose this has two causes. First, you can't make any response of refutation and second you are too lost in the ~~UNREAL~~ unreal.

Newman in particular. Or perhaps you are now hooked on the utter insanity of his that the Cubans did it. Picture of Jim Lesar hung up on all the disinformation of all those who perpetrated this on us!

What I wrote for the record for history, there being no probability of publication, is being retyped. Half of it is done. Badly but clean. It is being corrected and then I'll get a correct, I hope, version. I've give Dave the rough draft. And it is very rough even for me. But if you doubt my word, ask him.

I'm not going to give you a printout because you are too careless with everything.

And as I've told you I do not want to waste any time in pointless controversies.

I do not recall what little I did tell you but I believe I got and read a few parts of his book to you. ~~To anyone~~ not hungup in the silly unrealities and to any mature and informed person, especially informed on history, that should have been enough.

Besides which you read his book, I'm sure, and are not ninny enough now not to be aware of omissions in it, if you were not sensitive to what is so wrong in it.

If you want to take the time, I'll discuss it with you. I know you won't come here for me to show you, but I'd take the time for that.

I fear you are so utterly lost in all that kid stuff you are not aware of what you are doing to your reputation in all of it.

Or of what else you can do to it with that Cuban nonsense.

It is worse than nonsense and it can be very hurtful.

To all except juvenile minds and maturity and those with their own motives and purposes.

I do not intend insult. I'm trying to get you to think, really think.

You have not been thinking like a man or acting like a man.

And with it all you've been very irresponsible. I ~~apre~~ ^{spare} you details.
