The enclosed is the product of my efforts to put together a "primer" that would be able to reach the uninitiated, of which there are still 200 million. If you know of stronger evidence that should be included, let me know. I'm managing to struggle along on a correspondent's salary, and I'm up to me knees in home repair parojects to get the house ready by Valentine's Day. That's when Nancy is scheduled to have a baby. I'll be rocking the cradle with one hand and cradling the rock with the other.

Have a good woodburning season. Hope to see you soon.

Best, Andy

P.S. - My 11-22 article also is enclosed.
