Dear Mr. Weisberg,

Just a short note enclosing photocopies of Moritz and Fisher letters. Sorry for poor quality of typing - I'm not ~~XXX~~ exactly the world's best typist!

Thank you very much for referring my letter to Gary Schoener, and giving me his address. I will write to him soon. As for 26 volumes, I found out today that they are at last on their way to the bookshop. I will write to Mrs. Gewirtz regarding DCA film. Thank you for information on lenses etc.

I will write to see if I can get copies of Paris Match for you. As for Buchanan, the bookshop found no listing of a new book by him with publishers of "Who killed Kennedy" but I will enquire at publishers - he may have changed his publisher.

I enclose photocopies of the letters from Dr. Moritz and Dr. Fisher, and I also enclose the actual letter I sent to Dr. Fisher (The letter was written before I had access to a typewriter - I apologize if the writing is poor; I have another copy and will type this for you if you have difficulty in deciphering it.) The letter is the same letter, word for word, that I sent to Dr. Moritz (indeed, it is the same letter, to the word, that I sent to the other forensic pathologists - I have still had no reply from Dr. Helpert). Because I know so little of forensic pathology my letter of necessity contains much speculation about the wound etc. As you can see I explain clearly who I am in the first line of my letter. I make no claim to being a doctor of any kind, so the reference to me by Dr. Moritz as Doctor is a mistake on his or his secretary's part.

You mention a Dawney working here in UK, I do not know of him. I know of no-one else in UK studying assassinations. I did not keep any material on James Earl Ray extradition hearings but perhaps I could be of some assistance if you let me know what you want in this regard; I could maybe get some photocopies for you, but perhaps you do not think they are worth the expense; please let me know.

By the way, the cost of photocopies of letters and postage is almost exactly same as the amount I owe you for postage of "Photographic Whitewash" so you owe me no money, and vice-versa.

You also mentioned a Carnes - is that Dr. Carnes? if so what is his post? from the US Embassy in London I can then get his address, unless you can supply it.

Once again I thank you for your invaluable help and advice. Sorry to be so brief - I have to study - hope this has not distracted too long from your own important work.

Yours faithfully,

Chris Longbottom
