

11/10/68 - Phoned Roger I saw this p.m.
before leaving for Dallas to get a friend out - done
the most of a young woman on his staff for
not wanting to be distinguished of a man. In
this case Barbara Reed told me last night it
was a 17-year old girl named "Leticia" & said
to be related to Fidel. Roger said this was the
report, that the girl was 18, that it happened in
Houston, when 2 books were not packed but the
woman from H. O., not book, was packed.

In other news, 17-year-old daughter in
law of Roger said she is in (and out) of school
& usually makes occasional contributions, but he
says her name on the next list.

He says he began with but \$24, or for the
first issue of "Buddy". He is now \$2,000 in
debt, he says. He has bought equipment he is
not in a position to use - perhaps, like a BPR
machine that justifies the typing - but he has
no one to operate it, so he prints up just if not
typing! No, he has possible capital tied up, interest
on debt to pay for nothing.

He says this is the bad season because the
turnouts have stopped coming & that when
he had his largest circulation it was the same

he needed to break with. The financial
part was the largest was not in the company
then, so he had to go to his "editors"
On it was "with" + "with" with him. He
also has some "commercial" writing for
which he wants to spend in N.Y. Here also
I will not help him.

When some months ago I told you that
"World" was going to look on under George
John, I was not of the view speaking
the truth, which I did not see. I think
Rogers. I was also with more in mind.

It was Boggs's informant Tommy Breen
I've had heard Rogers would hundred dollars.

This seems quite like Tommy
Roggs's contribution. He has had his own
share, "Zemarchy," the initials of "Zeh" and
"anarchy."
