Dear Mr. Weisberg:

I have finished digesting your good book, Whitewash IV. It is a revelation unto itself.

My commendation for the perseverance and perspicacity you have shown. Since you hardly need this scribes laudation after the renown you have acquired through previous publications I nonetheless salute you for a job well done.

Enjoyed Jim Lesar's legal analysis since I found brilliance in his logistic sense. Having done many briefs for the Justice Dept. in Maryland (that is proofread them) I too discovered "entrapment" by paid informers on certain individuals in my tenure at King Bros.

It is with a feeling of mutual respect that I address you. It is pitiful that the courts of law are no longer based on justice. Thru empirical studies I found that Anne Arundel County was the worst subdivision in our state for fixing cases for political reasons. Having also served in the State Legislature 1951-1954 I have come to view all laws with a jaundiced eye. The lawyers have made an unholy shambles of the law by plea bargaining and over charging clients.

Page Two:

I can appreciate the great costs incurred in your quest for the truth. In our society truth has become an ignis fatuus, for mankind seemingly has lost its way in perfidy. Half lies are made to appear whole truths.

My father used an old saw, "Nothing crosses the devils back that doesn't come under his belly."

Again my best wishes and trust that you will not let them "twist and turn in the wind", but rather you will shoot those rascals down.

Yours cordially,

Augie

August C. S. Myers

P.S.

Will endeavor to sell a few books for you via personal friends.

Dear Mr. Weisberg:

Thanks for your letter of acknowledgement. I have edited many newspapers, books & trade issues.

I worked for King Bros., Inc., 208 N. Calvert St., Balto. Md., for ten years before retiring as proof-reader. They are most efficient in printing having done the State of Maryland & the Commonwealth of Virginia's laws until recently. The man to see there is Howard King, son of their former president.

King Bros. was established about 1847. There you can have hot or cold type. It is cheaper doing a book in cold type. As to the rates or prices I have no idea. That was out of my realm.

You are certainly indefatigable judging from the 5 books you have already printed. Have two books myself unprinted on account of rising costs in the printing field. Wrote both in my journeys through New Guinea and the Invasion at Leyte, P.I. in 1944.

Would suggest that you have a talk with Howard King on reprinting the book you have in mind. Just call him by phone his tel. no. is 727- 5835 area code 301.

I am enclosing a check in the amount of \$6.25 for a copy of Whitewash IV.

Would like to suggest that you contact local service clubs in your area for distribution, such as Kiwanis, Optimist, et al.

Page Two:

You could pay a commission for each book sold by them directly. In distributing have you considered the Women's Civic League, American Legion or possibly some banks in and around Frederick?

My early ancestors are buried in Myersville, near you. Our great-great grandmother gave birth to 14 boys and no girls on the Old Quarterfield road, Anne Arundel County. From Ferdinand, one of the 14 sons, who sired my father George comes my German lineage.

#/ I do wish you every success in promoting the sale of your books. Since adversity is the Mother of Invention I know you can conquer. Never lose faith in yourself.

Sincere best wishes,

Augie Myers
August C.S. Myers

P.S.: The CS in the middle of my name stands for Clean Stories. My tongue is in my cheek!
