Dear Mr. Weisberg,

Your letter along with the return receipt arrived in today's mail. Sorry, but believe you must have misinterpreted my mail. I was not soliciting your help - only wanted you to know what is going on around here. And thought you would be able to see through it - that it is bigger than just that property deal in Texas. I did hear from the court in Phoenix after I wrote to you, after ignoring me for a month. If I can't get that taken care of over there, then I will file a suit against them for violating my rights.

Do you watch the news? Why do you think all the flying around in the country? The Senate knows the truth about the Kennedy assassination, many of them. President Carter knows the truth - Richard Nixon - Gerald Ford ... President Johnson never knew. I can name people right here in town who were either a part of it or they now know the truth.

Just to give you an idea - One day I turned on the television to watch the Goodmorning America show with David Hartman.. His guest was Anthony Quinn who was telling them about a play that had been shut down in New York. He was disturbed because there was only one run of it. It was a play by Tennessee Williams - there was a king named Ray, etc. And then he began to tell something about the play and that it contained some good material about the conspiracy. Nancy asked 'is there a conspiracy?' He said that there is - that he is 62 years old and that he wanted it to come out during his life time - that he wanted his children to know the truth. And then he said, "There's a woman who has all of this information and they have her hemmed in..." Then it dawned on me that he was talking about me. So much for that.

I am not afraid of being shot or killed in that manner. Their plan for me did not work. It seemed so simple just to get me into the hospital and then take care of me there. But I got wise to them. And they have tried it again in different ways. Some of it is so weird that I won't even tell it. They have tried it with mind control suggestions and once they almost got me. Everything they do is psychological. (You will understand the term 'they' - it is the whole system)

Thanks for writing and take care of your self - do be careful. I can name some prominent people whom they have struck down with mind control suggestions..

Sincerely,

Valen
