San Pedro, California July 28, 1994

Dear Mr. Weisberg.

I'm writing to thank you for your contribution to exposing Posner. I am a researcher in the JFK murder case and your Case Open has taken a hugh burden off my shoulders. To bad none off us have the time to check more of his CIA/intelligence connections.

I can't tell you how excited I was to see your book on a bookshelf in a Santa Monica (CA) bookstore.

I will be recommending your fine work in my next JFK project (which is by and large being done to promote Lifton's work).

Excuse all the envelopes. It frustrates the law breakers.

If I travel back East hope we can have a cup of coffee together.

I have the honor to remain, Sincerely yours,

Faurence mcmanno, q

The letter was inside three ehvelopes, the inner one with the

inner one with the letter placed in it so that even with careful opening I cut the letter. That he thinks the CIA opens his mail to learn that he likes Case Open is not much less nutty that has ending me several days

ago, ananymously, a marked-up xerox of an innaccurate J. Kwithy review of Pasner's book from the LA Times of last November! Although he had no name on the earlier mailing, he had an illegible return address. this time he had his name and address typed neatly on the outer envelope. It is 12 inces long and & 9 inches

high. He used 2 29¢ stamps to mail a single page.
