

9/23/96

Dear Dennis,

I'm glad that you and Gerry think the suggestions I made will work and do both simplify what you plan and tell you that you will not be overwhelmed. I was troubled ^{by} that reaction because I believe what you plan is very worthwhile.

Up with Occam! Or if you prefer, Ockham.

Bill sent Steve August a copy of Waketh. Steve was quite pleased. He phoned but I was asleep and he told Lil not to wake me. Said he'd be done when the baseball season is over. Which will be pretty soon.

I'll be glad to get the LaFontaine stuff because I've run out of what to read and correct.

We did enjoy Bill's visit. We look forward to Dave this week. But when he phoned yesterday he said it will be for a day less than he'd hoped.

I hope there is enough root for that clematis to live and grow. They can get-and small- beautiful and they bloom when most blooms are past.

Bill Hills sent me a bound set of stuff from Internet, about an inch of it.

I'm impressed by how little the people represented know and how much they think they know.

It does misinform if this is a fair sample.

Some of those people went back almost 3 decades and reprinted lengthy articles of that era.

I'm sure there may be what is worthwhile but there was nothing like that in this selection from it.

Thanks and best,

Harold

Found another box of records and writing intended for Honorable Men. Jerry went over it and copied what he thinks he can use. He can tell you better than I what is in that box. It is filed with the manuscripts and with the other materials I'd mislaid and did not use in that writing. It is in a box that is labelled.
