Dear Ah,

It bugged Rae that I could not find the copy of the Times report I'd made, and she ~~was~~ was reminded of this by your call yesterday. So she kept looking and came up with one in the OPR Appendix B material. I decided to go through that volume and found a copy of records you may not have. I don't recall if you said you got that appendix or not.

My recollection may be failing me but I think I remember a different one.

Anyway, Bill is making the copies and they'll go with this.

Jerry McKnight is quite pleased to be getting the Tri-State coverage of the strike and I'll make copies for the completeness of my archive when deposited.

I can't find my copy of the "messiah" document, if you'd please make me a copy.

I'm supposed to be getting all the King political stuff but it has been very slow. I have only the Hoover O & C stuff, which I think you have.

Look forward to hearing about your trip. Hope your wife can come this time.

Best,
