The Washington Merry-Go-Round

By Jack Anderson

Experiments control to human behavior with science high-fenced Harry Diamond Laboratories in Washington.

To perfect the electronic bemachines, scientists are spending \$50,000 the brain. This leads to confuthis year and asking \$200,000 over the next two years. Ultimately, human guinea pigs will be used to test the de-

Although a classified memorandum in our hands specifies admits the general purpose is "short-time-span control of human behavior."

The control will be exercised through a devilish complex of flickering, steady and unseen light rays, audible sounds and other tones too high for the human ear to hear.

problem, The main the is that states. the memo and unique devices/ "novel systems must be constructed so they will "cause no permanent damage to target personnel" and to innocent bystand-

With thought recorded, the memo spokesman pooh-poohed the goes on to summarize the "ul-possibility.

logical/psychological studies."

Control Devices

Translated into plain Engfiction devices are being con-ducted secretly at the Army's dum envisions such devices as these:

- Flickering light of varying intensity which can throw off Army the normal electric rhythms of sion and can even break down the brain's ability to control the body.
- Sound outside the human hearing range which can cripple a person's ability to function. Audible sound, some of it the tests are for riot and civil so loud as to cause unenduradisturbance control, the memo ble pain, can have the same general effect.
 - Electronic sound devices which can interrupt, distort or mask speeches by troublemakers at demonstrations.

While the Army memo complains that "the present state of development of sound and light devices is not adequate to achieve the desired objective," it notes hopefully that the potential workability of at least "two systems has been shown."

When we contacted the Army to find out whether the tests were leading to a 1984 this humanitarian world of thought control,

make up the Army's "physio- painlessly as possible. We credit, the government has
