

Dear Bill,

5/22/96

Thanks for your letter of the 17th and the great kindness in it. Please tell me Charles's last name so I can endorse them to more than Charles

As you can see this Olympia has been a godsend for several days. My Hermes got to where the carriage would not move. It is being repaired. I've finished one chapter of another ms., Honorable Men, with this, and begun the next. And kept up with the mail.

When you see the man from whom you got it I'd like very much to know if there is anything that can require less pressure in pounding and how to removed the cover to change the ribbob.

I'm a bit more tired this morning. The referral to Johns Hopkins was as I'd believed the wrong one so aside from getting the <sup>right</sup> referral made while we were there it was ~~one~~ day and a trip wasted.

As usual the trip alone tired both of us.

You talk about your weather. Yours almost reached 100 and abruptly. There was to have been a storm when I was asleep so it will be milder today.

Yesterday we were chauffeured and the car was always comfortable by the time we got in it. That won't be the case today.

Thanks again and back to work again for me,

Harry
