Dear Mr. Anderson,

I've read and appreciate your thoughtful letter.

With regard to copies of records, while I am not in a position to make them if you are ever near here you can copy anything you may want.

If you can specify what you want you are also entitled to the first 100 pages copied for you at the National Archives without cost. That is under the 1994 act.

Some of the libraries down there had my books and they were stolen.

If I did not tell you, years ago I decided all we have to a fine, small local college, Hood Hood. It will preserve what I have as a permanent free public archive. Meagher's records are already there and some of mine, a small percentage, also are, copies of them for the students to use.

While most people do not want to talk about the assassination, all the polls indicate widespread refusal to accept the official mythology.

And a rather large number of people write me as you do.

For your understanding, if I've not said this earlier, the beginning of NEVER AGAIN is quite accurate. I have the documents and more than I used there. So it simply is not possible for any private persons to solve the same crime when there are no real leads to follow. Thus be careful about all those theories and "solutions."

Please excuse my haste.

Best wishes,

*Harold W. ...*

Dear Mr. Weiskurg:

(Found it in Powell's Book Store!)

Thank you for "Case Open."

I read your recent book yesterday.

I hope you have a chance to review

this Hosty book ©1996 Assessment  
Oswald.

I also read what he has to say after all of these years! It gets me to thinking - My God! what else did he hide? And those Bureaucratic wars!!!!

To make it brief - I've had an obsession on the JFK assassination ever since I was in Navy during Nov, 1963!

Too much to relate to you about my life in Europe & NYC & my Chinese, Russian, German, Japanese friends.

was in Cuba 1964 & 1965 - (Leeward Pt) & down there during the 1965 Santo Domingo crisis & showdown with Cuban gun boats & USSR naval Task Force in Cienfuegos Bay Leeward Point (U-2 marine air base),

I've been collecting documents + books  
 Reading  
 writing from & on.

Cuban-Soviet connections in JFK assassination  
 since 1960s!

I did not realize that you had written so many books on JFK assassination!  
 I would like to order a few books you have written. Perhaps your 1st book & obtain list of books you have written & avail - cost + P/H! I do have a copy of your "never again." I'm in process of reading!

I'm really interested to read those <sup>of you</sup> who 1st were writing about the JFK affair in early 1960s -!

As I've been reading & forming my own views from my travels & travel experiences without reading what you have written! (I have collected over 1000 books on assassination!)

Yes, Posner is a real rat! I agree!  
 How could he write such a book?  
 A very slick operator! Americans want very "simple" answers - They (or many) do not want to dig & search for answers!  
 The easier to read - "No thought" - The easy quick sell!!

I have an interest in this affair  
of JFK few of my friends do!

Most think I am a "kook" if I expound  
or get into the assassination -  
one can not even discuss "open views" on JFK affair  
few care??  
Most Americans (even those of 1960s  
generation) do not want to see another  
assassination book!?

Yes, I'm interested in reading what  
you have spent much of your life  
researching.

I've never thought it was a waste of time  
to read & try to understand the gods  
at work yesterday & what is  
happening today! The bureaucracy! (Ha!

I hope I am "open-minded" enough.  
to see the whole power relationship (S)  
in a new light today! And begin anew  
with a fresh view & approach to  
the assassination - even at 54 years  
& so many years abroad! (after 32 years!)  
I've collected too many articles on assassination  
& American - Soviet - Cuban intelligence!  
Always clipping articles from newspapers &  
magazines!

I've lived in NYC for over 25 years! I'm  
a New Yorker! Befriended almost  
100 Exiled Russians from 1977 onwards.  
The Intellectual - Elite from Leningrad!  
Learned alot of what happened over there  
in USSR during 1960s!

We are damn lucky to be alive!  
To <sup>have</sup> avoided nuclear war in 62-  
64 + 1965 when I was in Cuba!  
(VP- anti-Sub Squadron)!

I lived in Germany (BDR) in 1960s + 1970s -  
+ moved easily within the German -  
Japanese + Chinese <sup>Russian</sup> Exile community in  
NYC during these years 1960s - 1980s!

I still hope I could obtain several of your  
books + several other 1960s writers  
You may also have available! <sup>on assassination</sup>  
JFK

You know - even the libraries don't have  
any <sup>or many</sup> of the early 1960s assassination  
literature avail - Provels - Strands +  
our Salem Library! One has to dig to even  
get the books! unbelievable!

Guard your files with your life!!!!

J.

The next thing the CIA will tell us is  
the assassination never took place  
"all in our minds!" as the Holocaust  
& those revisionists!!! My God!

You are so today!?! Maybe you are  
more optimistic about America's future!  
I am not! Kids don't read!  
Or care? (I keep thinking you are still in  
your mid-~~60s~~ 60s!!)

My real regret I never wrote to you  
earlier! I hope it is not too late  
to contact you! I'm sorry you aren't  
in better health! Get well soon!

I'm sorry to know that Sylvia Meagher  
is now gone! I did not know she had  
passed away! I had heard alot about  
her in the 1960s + 1970s! —  
She had an apt not far from where  
I worked in 1970s + 1980s I believe,  
she wasn't that old! My age?!?

At any rate, I've enclosed a self-addressed  
envelope! Any price list on your books  
& shipping & handling would be appreciated!

Sincerely,
