

1/8/98

Dear Bill,

Several years ago, as part of Inside, I wrote what is on the enclosed disk. It amounts to a defense of the FBI. The charges are stupid, ignorant, baseless and of course, unfair.

I have no means of getting this disk duplicated and it is my file copy. After whatever use you make of it will you please return it?

If you want to make a copy for Hal or for Charles, fine.

My recollection now is not as clear as I'd like it to be and I think should be but I believe this includes a major debunking of the silly Mexico City theorizing.

Riebling used to be an editor at Random House. His book was published by a publisher owned by Random House.

We are having the warmest January days yet, maybe ^{consecutive} four higher than 60! Our own El Niño.

Judging by the level in the pool we have about four inches in two hours early yesterday morning, beginning before daylight. And it kept going. I'll soon know if the flood warning materialized because I'll soon leave for blood testing.

Hope you all have a good year.

Best,

Harold
