

Rt. 12, Fredrick, Md. 21704  
10/1/77

Dr. Ruth Minor  
Dept. Political Science  
University of Wisconsin  
Whitewater, Wisc.

Dear Ruth,

Thanks again for a pleasant evening, one that reduced the unpleasantness of having to change my plans and cancel the west-coast trip because those I expected to see in Los Angeles were going to be away. The messages did not get through until about three Friday morning, which was about the end of that night's sleep for me.

Mike phoned me in the morning because his editor wanted something on the ABC show. I presume you and Dave saw the Cap lines. I picked a copy up as I was leaving.

Jim may have seen the ABC show but I got here just in time for the end of the teaser for the next one.

Someone from the Milton radio station that goes on the air Monday with a full 10 watts of power was with several other students and me for lunch. This reminded me of your desire to be able to receive WFMT, Chicago. So I asked the student who was taking me around, a music major, if he gets it. Depending on weather, he does. He says he is a little farther from Chicago than Whitewater and that while he has a rooftop aerial he does not have an elaborate one.

I tell you this for the time in the future when you may decide to put up an aerial.

I was not aware that colleges as small as Milton remain. The student body is less than 300.

But it was an excellent audience and for the ~~township~~ population one of decent size. The student who took me around and back to the airport was excited over its size. More than he'd expected. Townsfolk, too, including some elderly.

Again many thanks,
