Dear gris,

A PARTIE A PARTIE A LA LICE DE LA PARTIE DE PROPOSITION DE PROPOSITION DE LA PROPOSITION DE LA PROPOSITION DE

excuse typing. alomst chopped left thumb off. doing vy well but awkward.

on your suggestion, you nephew, jenifer schroeder, has written me asking how she can get in touch with the committee to investigations because she wants to support them in ant way she can. i cannot, in good conscience, tell her how in any way that would suggest my enformment, hence i write you, leaving it yp to you what to tell her, what not to, etc. young people today have too much disillusionment to live with. unless your niece is without common sense, this would but add to hers.

may i add that to this day there has been no committee that has not been or wound up an abortion in almost all cases because of ego-tripping. nor can i think of one that has done any real good or the converse, hot done serious harm. to this i can add only an opinion, a good one would have been very helpful from the first.

the ctia is the creation and creature of a good friend of mine, bud fensterwald. we still work together on some things, i refused to join his committee (and the word and intent are his) when he formed it for two reasons, the first doctrinal, the hell with research, I'm gonna solve the goddam assassination; the secong personal, he haddpicked a bunch of has-beens, marginal paramoids and a couple of names who could be depended upon to be inactive, but no major critic. oh, yes, a couple of literary crooks, too. his only chnages since then has been to add names of the inactives and a few more whores, almost without exception. since the origin, although he has come to recognize the stupidity of his original concept and has switched to mine, that we must bird-dog tis to death, the other and serious sins are too visible to ignore, except to give bus personal publicity, this womenittee has, in my opinion, yet to do a single worthwhile thing, they have done hurtful things and they have failed to in a number of other cases only because i blasted them to their faces and shamed them, they are incredible for many reasons, perhaps most of all because after all this time not one of them possesses the basic knowledge of the basic fact. this is not to say they are not nive people. i have doubts about the integrity of a couple of members of the board. i know bud canot and won't keep his word if he sees a chance for personal kudos, and he has ruined a couple of the more promising ongoing investigations with which he had nothing to dp in an effort to grab such credit. there is a young lawyer working with him of whom i am both fond and full of respect. bud, personally, is a nice guy, but he

created this committee in his own image for his own benefit, is independently wealthy and does not need the money he solicits, which would do no more than reduce the drain on him, and in too many cases it comes from those for whom it represents a sacrifice.

if youd niece wants to oppose the right-wing or help with any kind of ssassination work, there is no other serious way in which she cannot do this better. they are not even dding today's research, and their fiercs determination to do everything for bud's credit forces them to be working on things sp dated that all the serious critics- of whom no single one felt this association possible have long since forgotten. i hate to tell you so frankly that it has done nothing, dreams the wildest dreams, wastes money and the time and effort of others, and has nothing but the most invalid and cheapest personal publicity to show for it, all further destroying the credibility of those doing real work, tending to siphon off the help they do not need and others do, and, of course, misleading everyone to think they represent all. aside from this there is the real question of rationality on this subject. ask you niece to send you that story and examine its conclusion, that "we" (read hud) are ready for teddy's assassination. To do what/ Weep? If your niece and you are not satisfied with my candor, ask her to send me a self-addressed postcard and I'll dig the address out of my files and send it. I will not engage in argument on this for the older I get, the more I have to do in less time, and the more unwelcome I find having to waste time wiping the backsides of the babies. But less that the truth would deceive you both.best regards,

letter was returned by the Post office.

The evident use of assassination

by right-wingers to assume that america's

was policies are not changed is most

depressing, and I would like to support

the Committee to I westgate assaisinations
